

**Arlington School Committee Regular Meeting**  
**Thursday, September 18, 2014**  
**6:30 PM**

*School Committee Room, 6th Floor, Arlington High School  
Arlington School Committee 869  
Massachusetts Avenue Arlington, MA 02476*

*Opening Remarks*

*6:30 p.m. Open Meeting (5 minutes) B. Hayner*

*Arlington High School Madrigal Singers, directed by Cheryl J. Christo*

*6:35 p.m. Public Participation (10 minutes)*

*6:45 p.m. DRA Architects (45 minutes) K. Bodie, Carl Franceschi and Scot Woodin*

- *Stratton School Final Feasibility Report*

*7:30 p.m. School Committee Discussion on NovusAgenda Software (45 minutes)*

*8:15 p.m. Superintendent's Report (20 minutes) K. Bodie*

*8:35 Consent Agenda*

*All items listed with an asterisk (\*) are considered to be routine and will be enacted by one motion. There will be no separate discussion of these items unless a member of the committee so request, in which event the item will be considered in its normal sequence:*

*\*Approval of Warrant: Warrant # 5027 Dated September 4, 2014 in the amount of \$782,298.82*

*\*Approval of Draft Minutes: None*

*8:40 p.m. Subcommittee & Liaison Reports*

*Subcommittee & Liaison Reports (15 minutes)*

- *Policies & Procedures, J. Pierce*
- *Budget, C. Starks*
- *Community Relations, P. Schlichtman*
- *Curriculum, Instruction & Assessment & Accountability, K. Allison-Ampe*
- *Facilities, J. Thielman*
- *Special Study Group on Superintendent's Evaluation, B. Hayner*

- *End-of-Cycle Summative Evaluation Report: Superintendent*

· *Chair*

1. *Arlington Commission on Arts and Culture position*
2. *Schedule Executive Session, Thursday, October 9, at 5:30 p.m. for the purpose to discuss the deployment of security personnel or devices.*

•

*8:55 p.m. Executive Session*

- *To conduct strategy sessions in preparation for negotiations with union and/or nonunion personnel or contract negotiations with union and/or nonunion in which if held in an open meeting may have a*

*detrimental effect.*

- *To discuss strategy with respect to collective bargaining or litigation if an open meeting may have a detrimental effect on the bargaining or litigating position of the public body and the chair so declares.*

*9:00 p.m. Adjournment*

*Correspondence Received:*

*Correspondence Received: From September 5 – present*

*Legal Spreadsheet September 2014*

*Letter to EDCO to confirm School Committee voted in the affirmative on EDCO Articles*

*Email to staff for services for Joseph Shea, father of Kim Pratt.*

*Warrant Number 15027 dated 9/4/2014, Warrant Amount \$782,298.82.*

*Press Statement dated September 5, 2014 regarding Mr. Eladhari's public comments at meeting.*

*DRA Architects Stratton School Feasibility Study Final Report dated 8/26/2014*

*Email to Pierce Staff on incident of student dated September 10, 2014*

*13th Annual Massachusetts Commemorative Ceremonies on the Anniversary of September 11, 2001*

*Metco Coffee notice*

*\*The listings of matters are those reasonably anticipated by the Chair, which may be discussed at the meeting. Not all items listed may in fact be discussed and other items not listed may also be brought up for discussion to the extent permitted by law.*

*\*\*Stated times and time amounts (listed in parenthesis) are the estimated amount of time for that particular agenda item. Actual times may be shorter or longer depending on the time needed to fully explore the topic.*

Dr. Bodie and School Comm..docx (135.2 KB) , Parent list - Dallin.xlsx (40.1 KB)

Greetings Dr. Bodie and School Committee Members,

I have attached a letter and list of Dallin School kindergarten parents who are all terribly concerned about the small classroom spaces and large student numbers in the Dallin School kindergarten class this school year. The current situation poses significant safety and pedagogical concerns. I plan to come to this week's school committee meeting to formally share our concerns with you.

I look forward to working with you to address the K-class student enrollment issues.

Dr. Bodie, I will come by the office tomorrow to drop off a hard-copy of the letter and parent names for your records. Please note: We had no formal means for gathering parent e-mails this early in the year, so this list might not include all of the Dallin kindergarten parents who are concerned about the class sizes this year.

Thank you,

Jessica Truslow-Trapotsis

September 15, 2014

Dear Dr. Bodie and School Committee Members:

We are writing to express our significant concerns about the kindergarten class size at the Dallin Elementary School. The class lists that were sent to parents in August included 22-23 students, but during the week before school we were told that the class sizes had increased to 24, 25 & 25 students, respectively. We appreciate the addition of 3 full-time aides, but we still have significant concerns about the overcrowding within the classrooms particularly given the small size of the kindergarten classrooms at the Dallin School.

The Massachusetts School Building Authority states in the Space Allowance by Program Activity guidelines (963 CMR 2.06 Table 4) that pre-kindergarten and kindergarten classrooms should be 1100-1300 sq. feet, including a self-contained bathroom. The Dallin School's kindergarten classrooms might be in compliance with the minimum limit stated but due to a permanent wall separating the children's cubby space and bathroom from the classroom, the actual classroom's learning space is reduced to 740 sq. feet. Twenty-five children and two adults contained in a learning space of approximately 740 sq. feet is entirely unacceptable for both safety and pedagogical reasons.

The overcrowding in the classrooms will cause even the most talented teachers to have difficulty meeting the social-emotional and academic needs of our children. The children's individual needs will not be readily attended to and the stated goals of the Tools of the Mind curriculum, into which the Arlington School Dept. has invested significant resources, will not be actualized.

We understand that the surge in this year's kindergarten enrollment is a district-wide problem. However, we implore you to immediately allocate personnel and/or financial resources to address the Dallin School's most urgent learning need. The kindergarten year is so vitally important, we cannot lose any time resolving this situation. We have expressed our concerns to Mr. Dingman who is exploring creative options with limited resources within the building and we wish to hear how the district leadership and School Committee will support Mr. Dingman, the Dallin teachers and this kindergarten class now and throughout grades 1-5 as this issue will follow them throughout their years at the Dallin School.

Thank you very much for your on-going work on behalf of our children. We appreciate your prompt attention to this matter.

Sincerely yours,

Jessica Truslow-Trapotsis

Lauren Boyle

And, all the Dallin kindergarten parents listed on the attached spreadsheet

### Dallin Kindergarten Parent Signatures

## **I. EXECUTIVE SUMMARY**

---

## Executive Summary

### INTRODUCTION

In the summer of 2014, Arlington Public Schools, Arlington, MA commissioned Drummeay Rosane Anderson, Inc. to conduct this feasibility study for the Stratton Elementary School.

This effort was initiated to address concerns and questions of parity in the education resources provided to students at Stratton as compared to students of other elementary schools in Arlington that have been recently rebuilt or renovated. While the Stratton has been well-maintained and the Town has recently invested significant funds (close to \$3 million), it is apparent that its facilities are in need of further attention.

Specifically this study identified the following key areas of need:

- Replacement of windows, roof and HVAC system in kindergarten wing to complete these systems' upgrades started in the classroom wing in the 2011 renovations.
- Expanding and Updating the Library/ Media Center.
- Expansion of Nurse's Suite, Administration area including conference room and expansion of Warming and Serving Kitchen.
- Identification of Additional parity issues between Stratton School and other new and renovated Arlington Elementary Schools and explore options for updating Stratton School to align more with these other facilities.

While the above list includes some significant facilities issues, it should also be noted that there are several positive attributes to the current Stratton School including:

- Robust technology infrastructure and equipment.
- Several program spaces that meet or exceed State space standards such as the Kindergarten classrooms and the cafeteria.
- Larger Classroom than at most other schools in the District.

This study addresses the scope, cost and feasibility for building renovations to address these needs.

### ORIGINAL DOCUMENTS & OTHER INFORMATION

DRA was provided existing conditions documents from the Arlington Public School to aid in the work required for this feasibility study including the following:

1960 Drawings	Original Construction	Rich & Tucker Associates
1966 Drawings	Classroom Addition & K Classroom	Korslund, LeNorm. & Quann,
2010 Drawings	Renovations (Phase I)	Turowski2 Architecture
2011 Drawings	Renovations (Phase I)	Turowski2 Architecture

Prior to the start of this Study, the Building Committee had conducted a Survey which aided in the understanding of what the Stratton Community felt were priorities for a renovation project.

This document was used in the identification of renovation components included for the project. DRA has also received an Assessment Report and Pay Requisitions from 2010/2011 projects for Cost Estimating Use.

### **PROCESS**

The challenge to this project was to organize all of the various and disparate renovation scope items into a comprehensive plan that works with the budget and schedule requirements of the owner. In order to establish this goal, an intimate understanding of the Owner's objectives, program and the existing facility were required. In an effort to reach this understanding, DRA proceeded with the following investigation:

- Programming Meetings with Principal and Staff
- Extensive On-Site Investigation of Architectural Elements
- Meetings on Site with Structural, Electrical and HVAC Engineers
- Conducted Preliminary Accessibility Survey of Facility
- Studied Other Facilities in District to Evaluate Parity Issues.
- Produced Options for Modified Admin/ Health Food Service Suite and new and relocated Media Center
- Explored various options for Renovation Scenarios and Schedules
- Estimated Costs for Various Options
- Code Review to identify mandatory upgrades that would be triggered with different renovation scenarios

### **CODE UPDATES**

#### **Accessibility:**

As part of this project, Handicapped Accessibility of the facility needs to be considered. The Massachusetts Architectural Access Board requires that a facility be brought into full compliance with 521 CMR if the work being performed is greater than 30% of the full and fair cash value of the Building. The Assessment report that DRA was provided by the Building Committee (Attached under Appendix) shows the Building value to be \$7,445,200.00.

Arlington's Assessment Ratio is 0.92 so the Equalized Assessed Value is \$8,092,608.70. This makes the threshold for full building compliance under the MAAB regulations \$2,427,782.61. Several scenarios have been discussed looking at options for addressing full compliance initially or staging compliance over several phases while avoiding tripping the threshold. This is evaluated further in Section 4

#### **Fire Protection:**

The requirements for fire protection are outlined under the 2009 Edition of the International Existing Building Code (IEBC) and MA amendments to the IEBC. The IEBC together with the MA Amendments are known as the Existing Building Code of Massachusetts (EBCM). The EBCM does not have financial thresholds to determine when sprinklers are required in an existing building. The IEBC Outlines several different compliance methods for existing buildings, of which the "work area compliance method" would be most appropriate for the extent of

renovations planned for the Stratton School. Under the requirements of this method (and considering that the scope qualifies as Alteration Level II) the implementation of a fire protection system would only be required if the work area exceeds 50% of the building area. Since the building is approximately 66,000 sf, a work area of approx. 33,000 sf or greater would exceed this threshold.

Seismic:

Under the work area method, only minor seismic upgrades would be required in the area to be reconfigured at the existing Admin/ Nurse/ Library/ Kitchen. No other seismic upgrades would be required in other areas of the facility. Only areas that would be reconfigured are mandated to upgrade to the current seismic requirements. Refer to full Structural Report in Appendix.

## **SCENARIOS**

Several options are considered in Section 4, as summarized below:

### **Scenario 1**

Scenario 1 – This option considers the completion of the 2010/2011 work (Windows, Roof, HVAC) in the Kindergarten wing as the first priority. The other scopes of work are spread over a multi-year phasing plan so that full accessibility upgrades are not triggered by renovation costs. This plan allows that Accessibility renovations can be phased over time as opposed to being required immediately. The scheduled work occurs in packages occurring every 3 years to avoid the sliding window of the accessibility threshold. The first package includes the “Base Repairs”, windows, roofing and HVAC replacement as well as some accessibility upgrades. The second package in Year 4 includes Program Changes (Media Center, Nurse, Administration and Food Services) as well as partial Fire Protection and Lighting. The Third and Fourth Packages, shown in years 7 and 10 address the bulk of the parity issues and other priorities of the district.

### **Scenario 2 -**

Scenario 2 considers an option where both the “Base Repairs” and Programmatic Changes (Media Center & Administration/Nurse/Food Services) are executed as early as possible, both being implemented in Year 1. This scenario would trigger the Accessibility threshold and would require that the complete facility be brought into full compliance with MAAB Regulations. This Scenario is organized in three phases with the largest scope of work occurring in Year 1.

Lighting and Fire Protection and some of the parity issues are addressed in Year 3 with Year 5 capturing the balance of the renovations addressing parity issues and renovations to the Site not already covered under the Accessibility Upgrades in Phase 1.

### **Scenario 3 -**

Scenario 3 is similar to Scenario 2 but organizes the work into packages to be undertaken in three consecutive summers. This scenario would trigger the Accessibility threshold in Year 1 and would require that the complete facility be brought into full compliance with MAAB Regulations. This Scenario more evenly distributes the work, with Programmatic Changes

(Media Center & Administration/Nurse/Food Services) as well as Lighting and Fire Protection being addressed in Year 2. Year 3 would capture the balance of the renovations addressing parity issues and renovations to the Site not already covered under the Accessibility Upgrades in Phase 1.

**Scenario 4 -**

This Option simply looks at addressing all of the scopes of work identified during the feasibility study. This option is advantageous in that all of the projects objectives are accomplished in the Short term, however the cost far exceeds what has been discussed as the approximate project budget. Also, the extent of this project will likely extend the construction period beyond a summer recess and will require addition phasing/ scheduling consideration.

Please note that this Study did not specifically consider the standards or guidelines established by the Massachusetts School Building Authority (MSBA) in identifying these areas of need; however certain elements of this program may in fact be prove to be eligible for reimbursement from the MSBA. Specifically the MSBA has an accelerated repairs program that has, in the past, reimbursed districts for roof, window and HVAC repair projects. It is recommended that Arlington Public Schools contact the MSBA to discuss whether such reimbursements may be appropriate for the Stratton School.

**CONCLUSION**

The estimated cost for all scopes of work, regardless of Sequencing or Phasing, is \$7,906,008 Construction Cost and \$9,882,510 Project Cost, all in 2014 year costs. The Project Cost includes Soft Costs such as Professional Fees, Testing and Inspections, Furnishings, Bidding Costs and Contingencies.

This study provides the data to allow Arlington to make informed decisions regarding the future of the Stratton School. While no single option is recommended, there are several possible scenarios for the Town to consider depending upon scope, budget and schedule, that are outlined in Part IV, Scenarios.

*End of Executive Summary*

## **II. PROGRAMMING NOTES AND DIAGRAMS**

---

June 11, 2014

**Attendees:**

Michael Hanna, Principal  
Kim Carroll, Special Educator  
Laurie Henry Social Worker  
Kim Pratt, General Educator  
Martha Benes, School Nurse  
Melena Brown, Librarian  
Denise Boucher, Food Service  
Sharon Malone, Food Service  
Scot Woodin, DRA Architects

**Programming Meeting Notes**

Two areas will be considered for programmatic changes. First that the Library/ Media Center will move to the existing Lower Gym which currently serves the afterschool program. This space is located on the south end of the building. The second area is the existing Administration Suite which, when the library is relocated, will allow for expansion to make an expanded Administration Area, Nurse's Area and Foodservices Area.

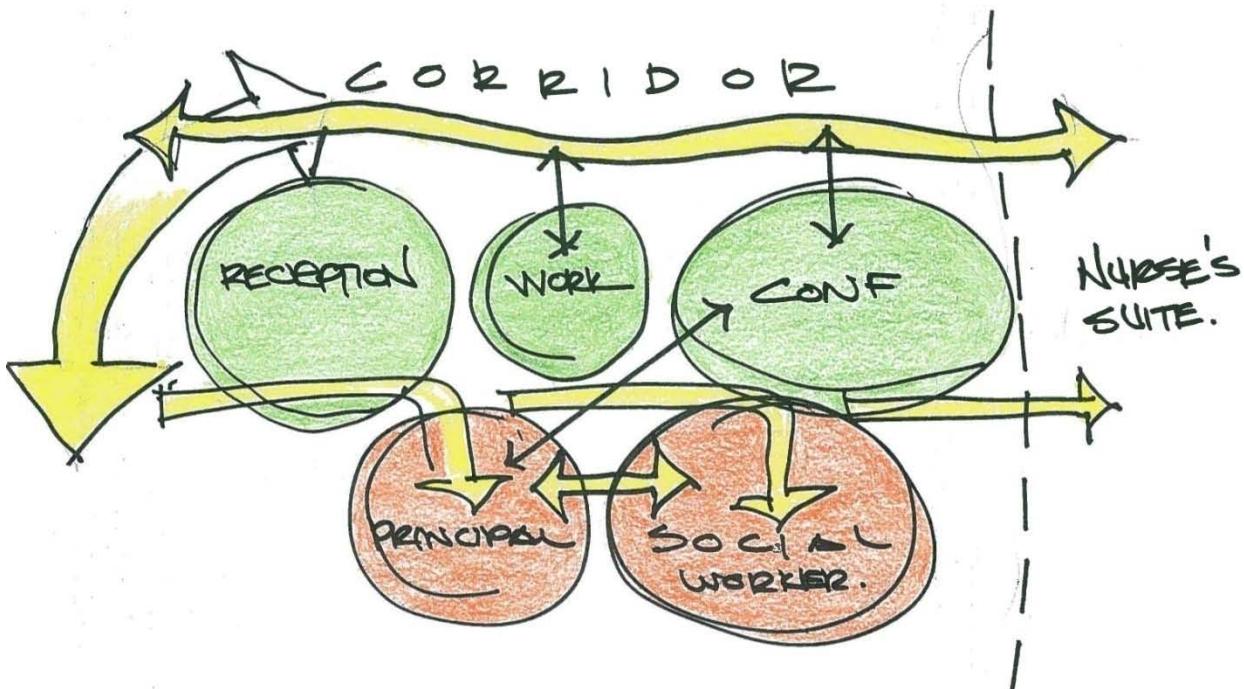

**ADMINISTRATION**

Main Administration Area – Secretary generally Likes the Layout and Function of the front office. Mr. Hanna's office is very small but reportedly meets his needs for the limited amount of time that it's occupied. Discussion focused on the need to expand the Social Worker's Office, which was estimated to need twice the space that it currently. The space required is comparable to that at the Thompson School. In addition to the adult desk with chair, the space requires a 3' round table with 4 to 5 chairs, floor space for student activities, chair for parent conference, additional bookshelves and storage.

The connection between the principal's office and the social workers office is critical. There is currently a door between these two rooms which must be maintained or if the area is reconfigured, this adjacency needs to be reestablished.

A new conference room is planned for the administration suite which, ideally, would be planned with connections directly to the corridor as well as from the interior of the administration suite.

The Reception Desk at the lobby currently serves as the control point for access to the Admin Area, including the offices for the principal, the social worker as well as the nurses' suite. This works well as configured.

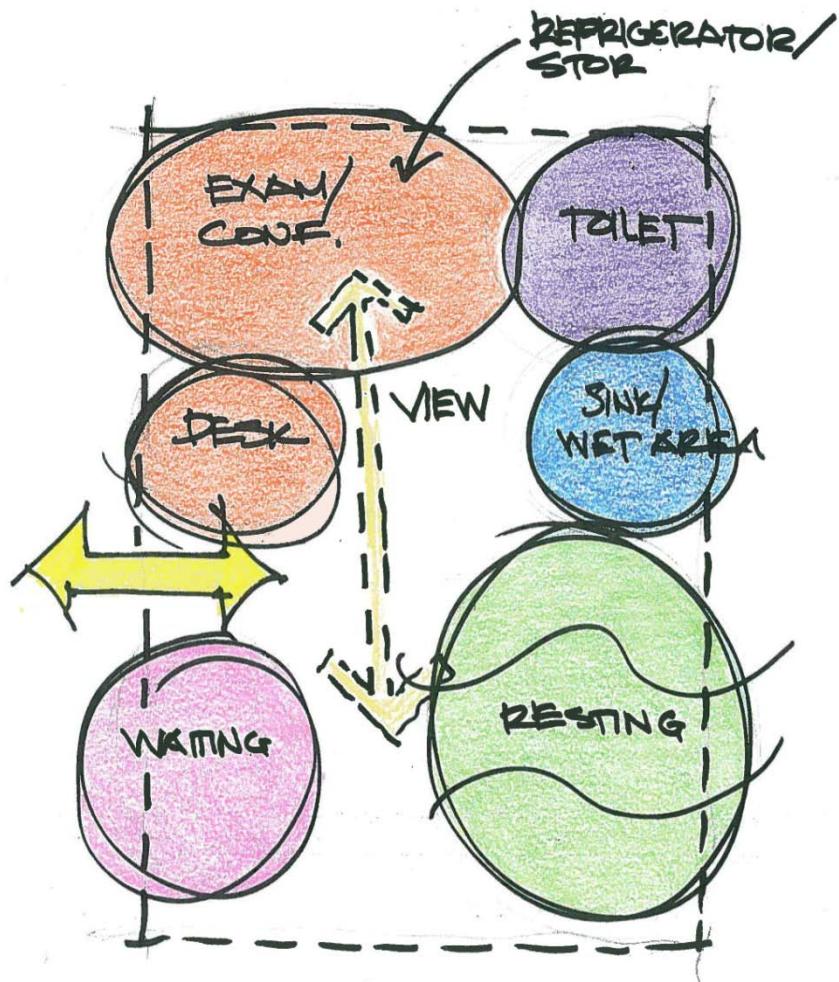

### NURSES' OFFICE

The Nurse's office is very small. There is no separation currently between the different functions that the space serves – nurse administrative desk, exam, resting, waiting and conference all happen within the same room. The toilet room for the nurse is shared with the administration area and it is outside of the suite. The nurse also mentioned that she did not like the current configuration where her desk is right in front of the sink/ wet area.

It was discussed that the function of the space would be improved if there was a private exam conference room so that there could be some level of privacy. This room could have lockable storage and a half glass door so that supervision of the resting/ waiting areas could be maintained.

Other requirements/ equipment required in the nurse's area include:

- 2 cots for resting area with cubicle curtains to separate from adjacent areas
- Refrigerator/ Freezer
- Sink with eyewash incorporated into it.
- Bathroom within nurse's suite
- Nurse desk & chair
- Chairs for waiting
- Window to the Exterior (Natural Light)

### KITCHEN / CAFETERIA

The size of the kitchen needs to be expanded in order to provide more equipment, more prep area, storage and bring the space into compliance with applicable codes. The current configuration has the majority of the equipment within the corridor including: the entire serving line (hot and cold serving) milk cabinet, ice cream refrigerator and freezer, rack and recycling can.

Inside the kitchen room is a double stack over, warming cabinet, 3 bay sink, shelves a desk and a prep table.

50% of the students buy lunch. Approx 60 students in each of three servings was estimated.

School currently uses paper and plastic. Recycling is important.

“Anything is better”. Ideally, they would like to kitchen facility to be more like the Dalin or the Brackett.

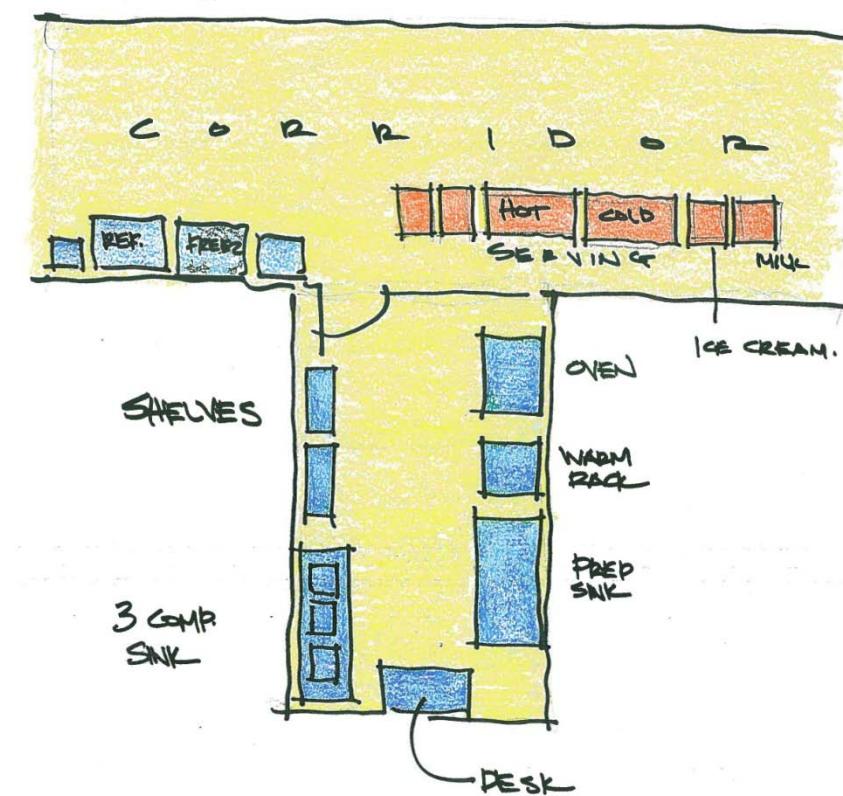

A primary objective of this exercise is to reduce the amount of equipment in the corridor due to its impact on circulation and efficiency.

#### Desired Equipment

- Stovetop
- Tilt Skillet
- Reach In Refrigerator & Freezer
- Milk Cooler
- Prep Rack
- 3 bay sink (larger than current which is too small)
- More Prep Area/ Prep Tables/ Counter Space
- Dry Storage
- Cart for Sped Meal Delivery/ Plastic Trays

Point of Sale area is currently within cafeteria itself, which is not ideal.

Parent support for lunch is significant.

The current area is significantly undersized compared to State standards and other Arlington elementary schools. It manages to function adequately but there is no ability to support different functions and simultaneous activities. The current space does not have sufficient storage or a circulations desk. A separate library office/ work room also does not exist which could be beneficial.

The new library is planned to occupy the existing lower Gym where the after school program is currently housed. The after school program does not require a dedicated space and the school will determine in the future what space it will be tethered to.

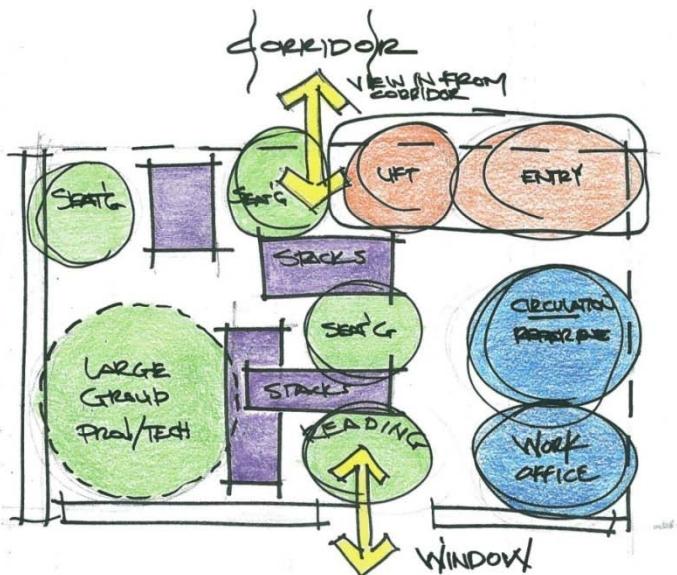

The new library will require a lift for access. Exterior windows are high and it would be desirable for some to come down nearer the floor so that there is a connection to the exterior. A window at the end of the corridor that terminates at the new Media Center connecting the hall to the Media Center would be desirable.

The Media Center is envisioned to be more of a "learning commons."

Areas could include:

- Circulation Desk
- Various size book Stacks
- Flexible and various work/ seating areas for independent and collaborative work.
- Separate Work/ Office/ Storage Room for the Librarian.
- Large Group Area (classroom size) with data infrastructure and projection capabilities.
- Reading Area

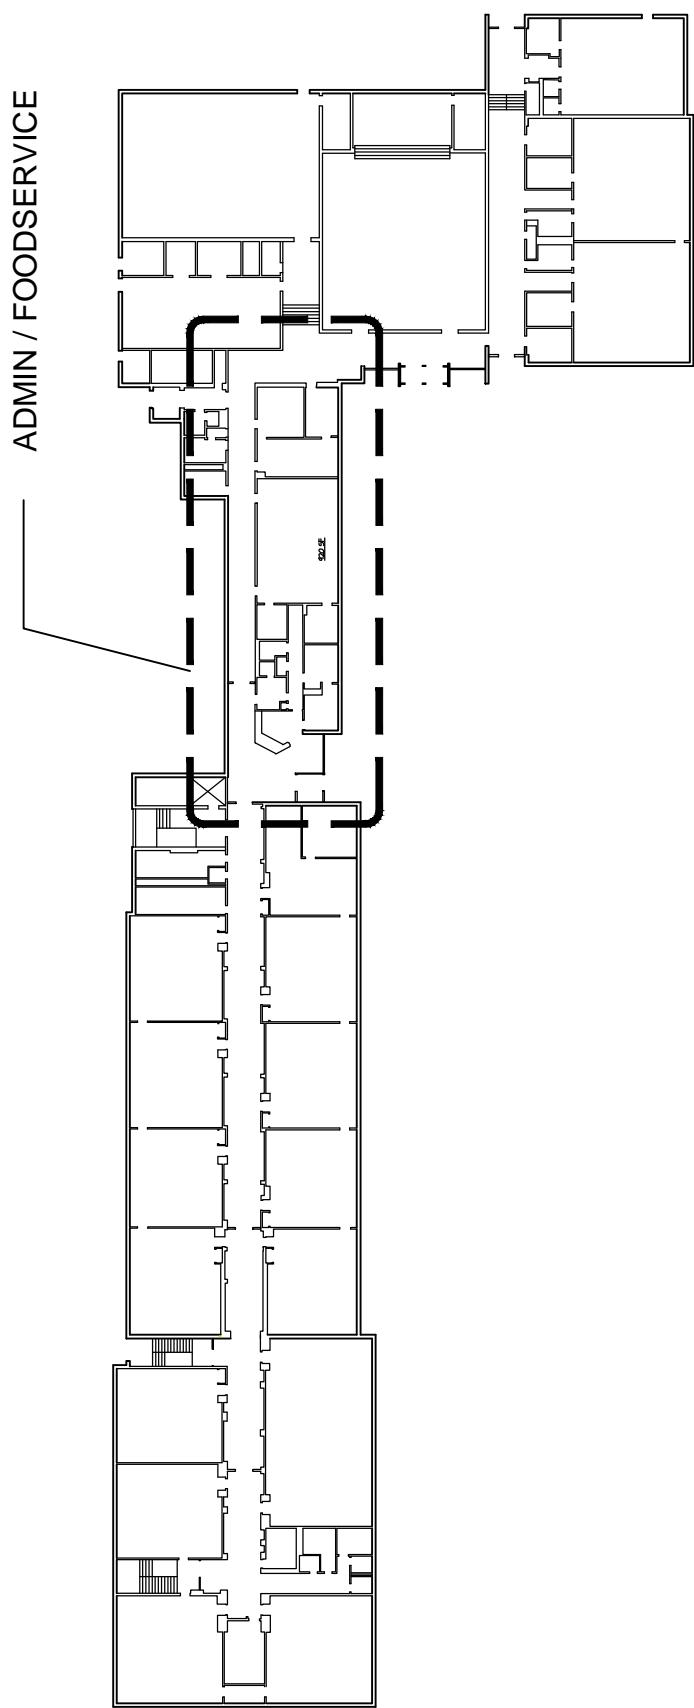

Air Conditioning?

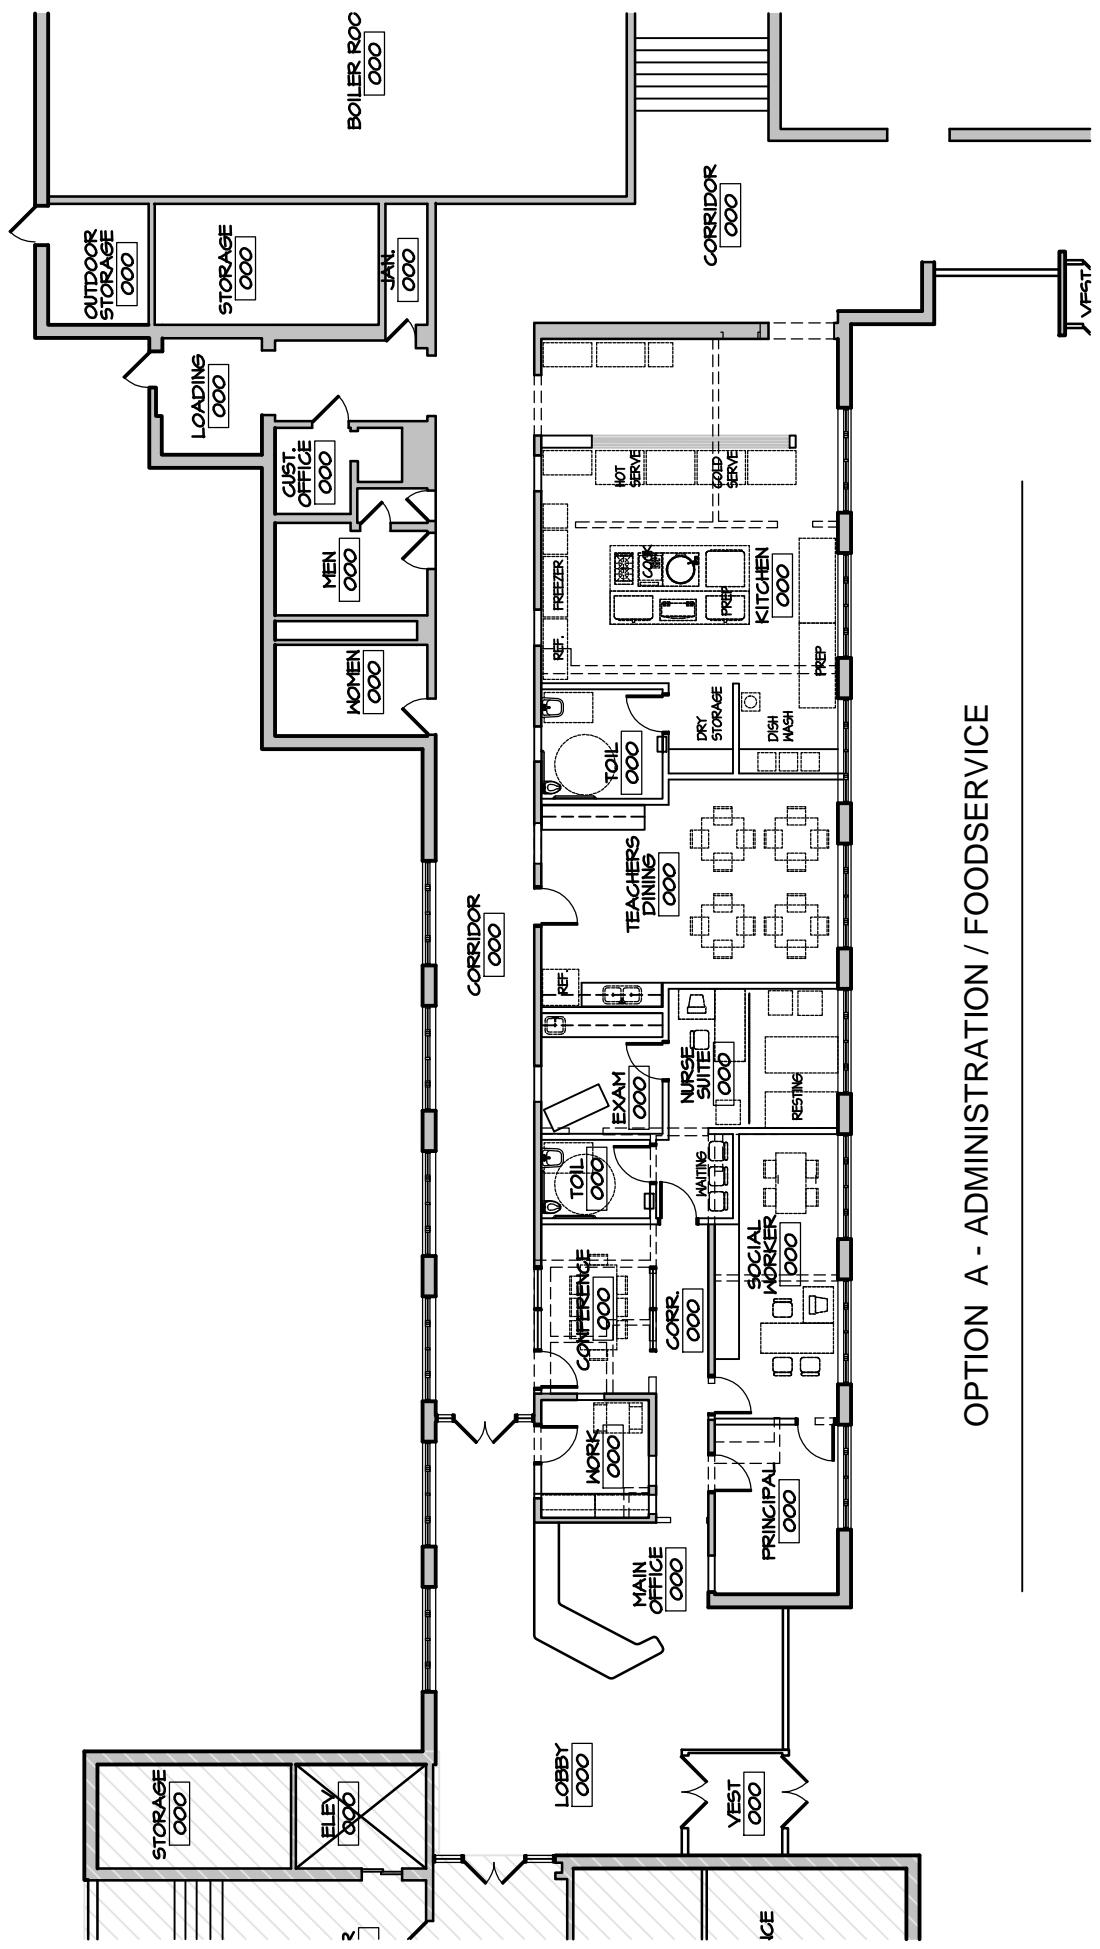

### **III. PROGRAMMING CHANGES – FLOOR PLANS**

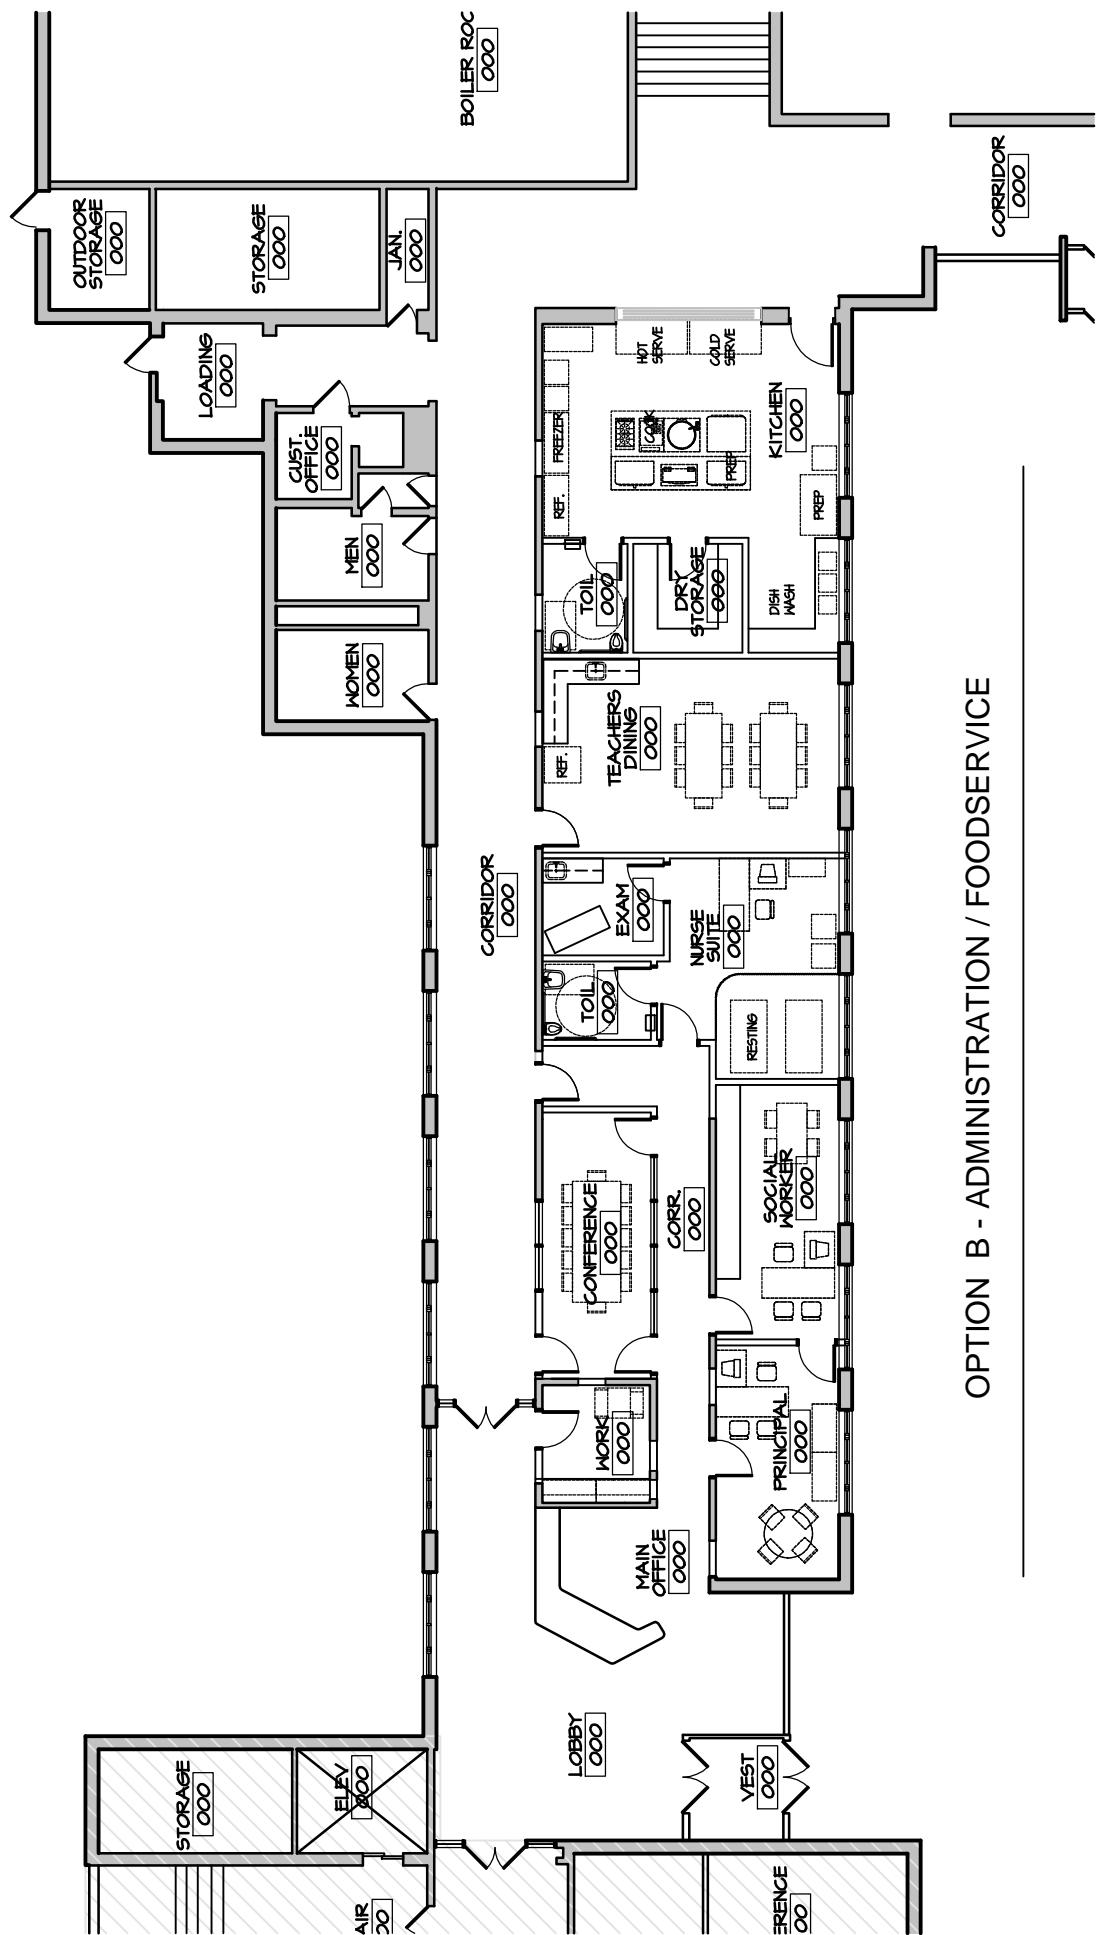

---

FIRST FLOOR- KEY PLAN

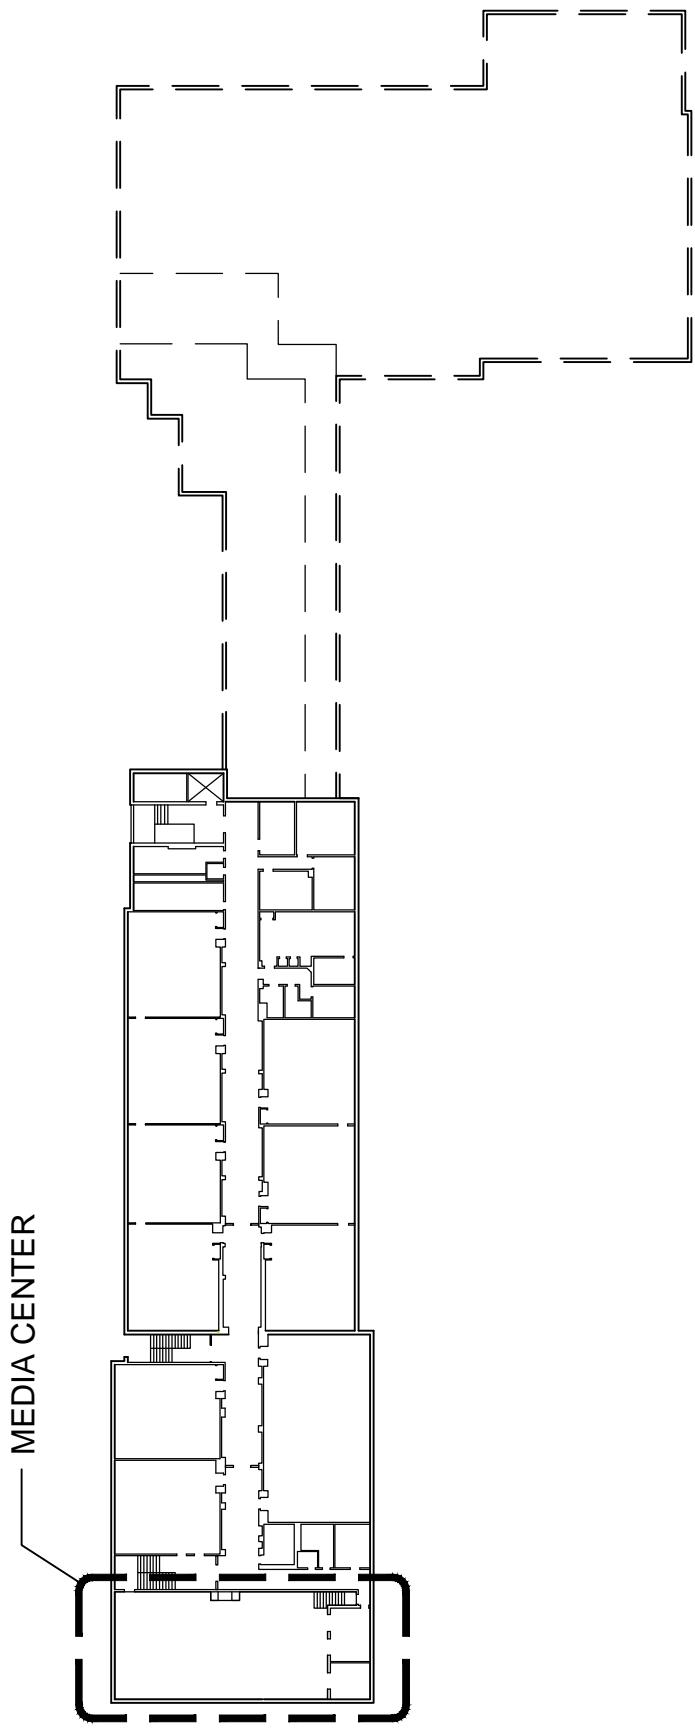

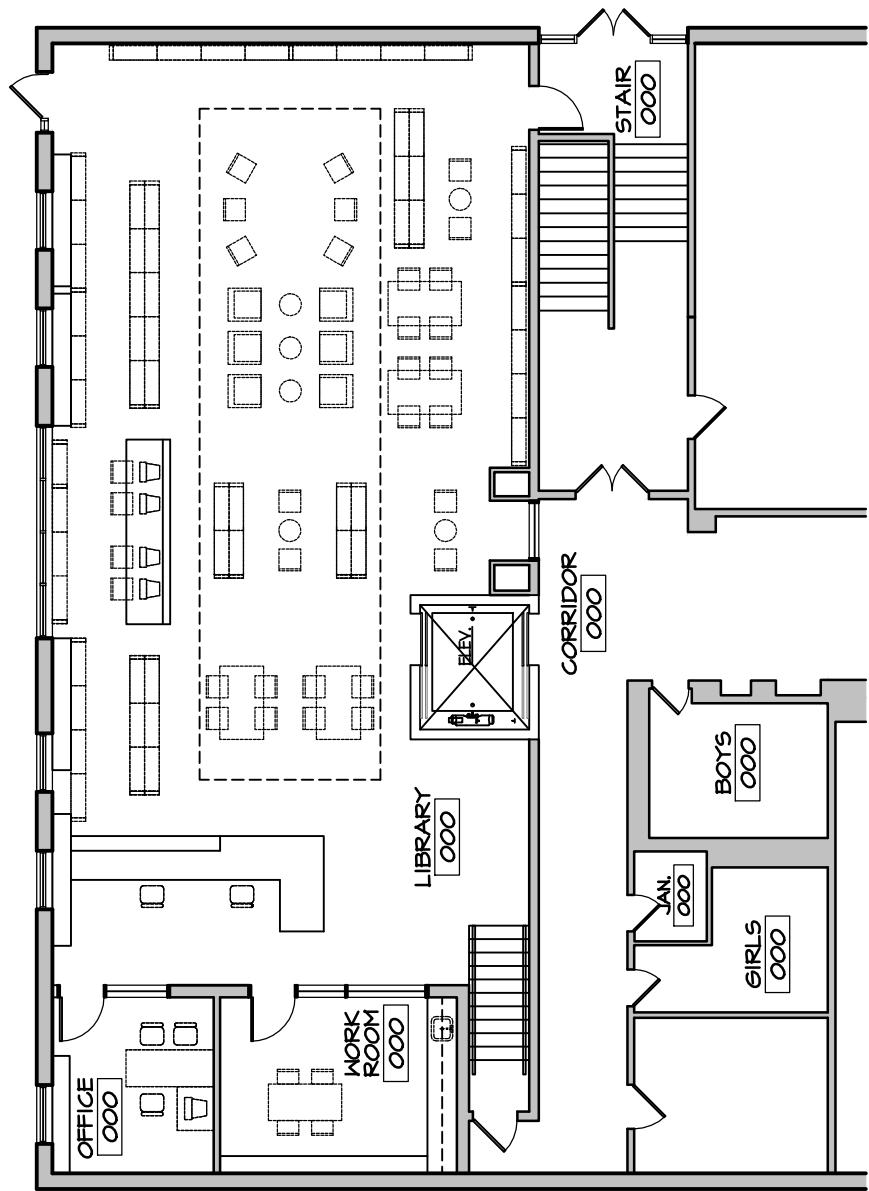

OPTION A - ADMINISTRATION / FOODSERVICE

OPTION B - ADMINISTRATION / FOODSERVICE

GROUND FLOOR- KEY PLAN

MEDIA CENTER - OPTION A

#### **IV. SCENARIOS**

---

## SCOPES OF WORK

This Study identified various scopes of work that are recommended to achieve the goals of the Arlington Public Schools for the Stratton School. These can be organized into the following categories:

Category	Item ( <i>as listed on the scenario spreadsheet</i> )	Description
<b>"Base Repairs"</b> continuing the Repairs from the 2010 Phase One renovations	Roofing	Replacement of the built-up roofing system on the remaining portion of the school (Office/Kindergarten wing) with new EPDM roofing system. Includes new insulation, flashing, blocking and edge trim.
	Windows	Replacement of the existing windows and entry systems on the remaining portion of the school (Office/Kindergarten wing) with new aluminum insulated windows. Includes new entry doors and hardware.
	HVAC	Replacement of the Heating, Ventilating and Air-Conditioning systems on the remaining portion of the school (Office/Kindergarten wing) with new system to match the Phase One renovations. Includes replacement of through-wall unit ventilators, and installation of a new high-efficiency hot water boiler
<b>Code Upgrades</b>	Accessibility	Renovations to make the entire school comply with Massachusetts Architectural Access Board requirements. Includes wheelchair lifts to access the lower level after-school area, stage, gym and kindergarten, renovations to all student toilet rooms to provide accessible stalls & fixtures, modifications to classroom entries to provide proper clearances, replacement of door hardware, and upgrade of stair railing systems. New Sidewalk and Handicapped Accessible Curb Cuts at Front Entry Plaza.
	Fire Protection	Installation of a complete NFPA sprinkler system throughout the school. Includes upgrading exterior incoming water service, replacing entire ceiling system with new suspended acoustical tile ceiling and minor reworking of existing light fixtures.

	Seismic	Providing lateral bracing of certain tall masonry partitions by way of steel angles attached to the structure
<b>Safety/Security Upgrades</b>	Fire Alarm	Upgrade entire Fire Alarm system throughout school
	Surveillance	Add security cameras and security control systems
<b>Telecommunications</b>	Phone System	Add VOIP Phone system throughout facility with associative cabling. Paging features for intercom included.
<b>Programmatic Revisions</b>	Administration/Food Service	Renovations to the current Library area to provide expansion of the kitchen/food service area into an appropriate warming kitchen & servery, and expansion of the administration space by reconfiguring the nurse's area, social worker's office and adding a conference room.
	New Library	Renovations to the former lower gym that currently houses the after-school program to convert it into a new Library/Media Center. Includes a new lift, construction of librarian's office and workroom, new circulation desk & built-in shelving, and upgrades to the lighting and HVAC.
<b>Finish and Building Upgrades</b>	Lighting	Replace light fixture throughout including switching
	Classrooms	Includes: New shelving and storage units, new "light shelves" painting of all walls, and new teacher desks
	Lobbies	Includes: new reception desk and new finishes, including flooring, wood and fabric wall panels, and ceiling soffits
	Corridors	Includes: ceramic tile wainscot, wood lockers & trim, and wood classroom doors.
	Gymnasium	Includes: painting walls & ceiling, new backstops & wall pads, and new acoustic wall panels

	Cafeteria	Includes: new wood paneling at proscenium, new acoustic wall pads, and new acoustical partition at stage
	Stage	Includes: Painting walls and ceiling, new theatrical lighting, upgraded sound system, and new casework for instrument storage
	Toilet Rooms	Includes: New fixtures, new partitions & toilet accessories
	Entranceways	Upgrade entrance treatment including new school signage
	Occupancy Sensors	Add occupancy sensors to control light fixtures
<b>Site Improvements</b>	Signage/Striping	New Directional Signage and Line Striping for Parking and Traffic Control
	Parking Area Improvements	Improvements to Parking Area to include new timber guardrail to replace existing metal one and new guardrail at street sidewalk to separate school parking from municipal sidewalk
	Other	General Landscaping and Outdoor Classroom.

Scenarios for Scope Implementation  
Stratton School - Arlington, MA

**Scenario ONE**

	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10	Total
\$ 1,034,829	HVAC			\$ 359,843	New Library		\$ 197,571	Lighting	(25% this phase)	\$ 82,969	Entranceway

## **VI. APPENDIX**

---

## **APPENDIX i MEP Report**

---

GRIFFITH & VARY, INC.

# Mechanical, Electrical, Plumbing and Fire Protection Existing Conditions Narrative for the Stratton Elementary School

---

Arlington, Massachusetts

June 20, 2014

---

## **TABLE OF CONTENTS**

Fire Protection.....	2
Plumbing.....	3
HVAC.....	4
Electrical Systems.....	7

---

## ***Fire Protection***

### **Existing System Summary:**

1. The existing building does not have an automatic wet-pipe sprinkler system.

### **Recommendations:**

#### ***General System:***

1. It is strongly recommended that a sprinkler system be installed in this school to provide coverage throughout.
2. Design Criteria:
  - a. The Fire Protection systems shall be provided in accordance with NFPA #13, NFPA #14, the BOCA Fire Prevention Code and the latest Massachusetts State Building Code.
3. Summary of Sprinkler System Work:
  - a. The fire protection system shall be a wet-pipe, combined sprinkler/standpipe system to protect all areas of the building. Each level of the building will be protected as a separate zone of fire protection.
  - b. The fire protection system shall commence at a separate, designated fire water service. Where this service enters the building, a double check backflow preventer shall be provided. A wet-pipe alarm riser shall be provided immediately after the backflow preventer. Fire department connections shall be provided at the front and rear of the building and will connect to the fire protection system.
  - c. The stairwells will have standpipes having fire hose valves with cabinets. Each floor of the building will be a separate sprinkler zone, being fed from a floor control valve connecting to the standpipe risers.
4. Materials:
  - a. All sprinkler piping 2-1/2" and larger in size should be a Schedule 10 steel pipe with rolled joints with victaulic fittings. All piping 2" and smaller should be Schedule 40 steel pipe with 175 lb. screwed fittings.
  - b. All finished areas of the building with finished ceilings should be protected by concealed piping with semi-recessed pendant sprinkler heads.
  - c. All unfinished areas of the building should be protected with exposed piping having brass, upright sprinkler heads.

---

## ***Plumbing***

### ***Existing System Summary:***

1. The building is served by a single domestic water service. Domestic hot water is provided to the toilet rooms from a steam heat exchanger in the boiler room and an electric hot water heater provides hot water to the kitchen. Although the service size appears to be adequate, the existing hot water heaters have outlived their useful service life and are not suited for re-use in an academic facility.
2. The existing plumbing fixtures appear to be original vintage throughout.
3. The buildings sanitary system drains by gravity to outside of building.

### ***Recommendations:***

#### ***General System:***

1. Design Criteria:
  - a. The Plumbing Systems of the building should be provided in accordance with Massachusetts 248 CMR, Massachusetts Fuel Gas and Plumbing Code and the Massachusetts Building Code.
  - b. Disconnect and remove all existing plumbing fixtures not to be reused complete with all associated piping.

#### ***Materials:***

1. Domestic Water:
  - a. All new domestic water piping should be of Type "L" copper with wrought copper fittings, sweated with no-lead solder. All water piping will be insulated with 1" thick, heavy density, fiberglass insulation having an all-purpose jacket. All valves should be ball type. All valves and fittings should be insulated with pre-molded pipe enclosures packed with fiberglass insulation. Pipe will be supported individually on clevis type hangers. Twelve-inch (12") long pipe saddles should be provided between all supports and the insulated pipe.
2. Sanitary Waste and Vent:
  - a. All interior DW&V piping above grade should be service weight, cast iron pipe with "no hub" fittings except for pipe 2" and smaller which may be Type "M" copper tubing with sweat joints

---

---

3. Fixtures:

- a. All water closets, urinals and lavatories should be of vitreous china and should be white in color. Water closets should be wall-mounted units and operate on 1.28 gallons per flush. Urinals should be 0.5 gallons per flush. All fixtures should be installed with floor-mounted carriers.
- b. Lavatories should have sensor type faucets with hot and cold water controls. The supplies and wastes of all handicapped lavatories should be insulated with pre-formed insulation components. Water to all lavatories should be tempered to 110°F.

## HVAC

### Existing System Summary:

1. Classrooms:

- a. The classrooms were each furnished with a dedicated Nesbitt classroom unit ventilator, installed at the exterior wall complete with a fresh air louver with steam heating coil. The fresh air connection has an automatic damper to open when the unit is energized and closes when the unit is de-energized. The fresh air damper operation could not be verified. These units have outlived their useful service life and should be removed and replaced with new.
- b. General exhaust for the classrooms is achieved by a system of exhaust grilles, ductwork and roof mounted exhaust fans. The equipment appears to be original vintage and has outlived its useful service life.

2. Bathrooms:

- a. Each bathroom incorporates an exhaust grille connected to riser ducts to roof exhaust fans.

3. Gymnasium:

- a. The gymnasium has its own dedicated heating and ventilation system. The HVAC needs are met by a heating and ventilating air handling unit with a steam heating coil. The H&V unit is suspended from the gym roof structure. This unit was manufactured by Nesbitt, installed during the original construction of the school and has outlived its useful service life

4. Library:

- a. The library was furnished with a dedicated Nesbitt classroom unit ventilator, installed at the exterior wall complete with a fresh air louver with steam heating coil. The fresh air connection has an automatic damper to open when the unit is energized and closes when the unit is de-energized. The fresh air damper

---

operation could not be verified. This unit has outlived its useful service life and should be removed and replaced with new.

5. Cafeteria:

- a. The cafeteria is served by two (2) heating and ventilating air handling units with steam coils. The H&V units are installed in storage rooms that flank either side of the stage. These units were manufactured by Nesbitt, installed during the original construction of the school and have outlived their useful service life.

6. Boiler Room:

- a. Heat for the school is furnished by a combination of two (2) steam boilers and one (1) new high efficiency gas fired condensing boiler. The steam boilers serve the existing section of the school, while the condensing boiler serves the recently renovated section.
- b. The steam boilers were manufactured by H.B. Smith, model 440-1 Mills type each with seventeen (17) sections. These boilers were installed when the school was originally constructed and have outlived their useful service life. However, the original burners were replaced in 2007 with newer burners manufactured by Industrial Combustion. Low pressure steam condensate return to the boiler room via gravity where it is first recovered in a blow-off tank, which then drains to a condensate receiver/duplex boiler feed pump. This condensate handling equipment is original vintage, in poor condition and has outlived its useful service life.
- c. The gas fired high efficiency condensing boiler was installed in 2012 as part of the recently completed renovation project. This boiler was manufactured by Hydrotherm, model KN-20 and has a maximum output of 1,854 MBH. Based on preliminary load calculations, this boiler was sized to handle the renovated section of the school only. This boiler is in excellent condition and will provide reliable service for twenty (20) years if properly maintained.
- d. Heating hot water is circulated to the renovated section of the school by a pair of base-mounted end suction pumps manufactured by Taco, model CI2009. These pumps are controlled by variable frequency drives, which modulate the pump speed based on building load. The pumps are in excellent condition and will provide reliable service if properly maintained.

7. Automatic Temperature Controls:

- a. The renovated section of the school has been retrofitted within modern DDC controls, while pneumatic controls remain in the existing area.
- b. Control air is provided by a new duplex air compressor manufactured by Quincy. The control air is dried via a Hankinson air dryer. The compressor and air dryer are in excellent condition.

- 
- c. Pneumatic controls are an outmoded means of providing automatic temperature controls.

*Recommendations:*

- 1. Classrooms:
  - a. The existing classroom unit ventilators shall be replaced with new units. The new classroom unit ventilators shall be furnished with hot water coils. The new classroom unit ventilators will use the ASHRAE III cycle of operation and be controlled by new DDC controls.
  - b. The existing roof mounted general exhaust fans will be replaced with new and rebalanced as required to provide code required exhaust air flow rates.
- 2. Bathrooms:
  - a. The existing roof mounted toilet room exhaust fans will be replaced with new and rebalanced as required to provide code required exhaust air flow rates.
- 3. Gymnasium:
  - a. The gymnasium heating and ventilating air handling unit shall be replaced with a new H&V unit. The new H&V unit shall be furnished with a hot water coil, will use the ASHRAE III cycle of operation and be controlled by new DDC controls.
- 4. Library:
  - a. The existing classroom unit ventilator shall be replaced with a new unit. The new classroom unit ventilator shall be furnished with a hot water coil. The new classroom unit ventilator will use the ASHRAE III cycle of operation and be controlled by new DDC controls.
- 5. Cafeteria:
  - a. The cafeteria heating and ventilating air handling units shall be replaced with new H&V units. The new H&V units shall be furnished with hot water coils, will use the ASHRAE III cycle of operation and be controlled by new DDC controls.
- 6. Boiler Room:
  - a. Due to the fact that steam systems are inefficient by modern standards and are expensive to maintain, it is recommended that the existing steam boilers be completely removed along with all associated steam and condensate piping and equipment.

- 
- b. An additional gas fired high efficiency condensing boiler should be installed to provide heating hot water to the section of school to be renovated. This boiler will also have the added benefit of providing some redundancy and back up should a boiler be out of service.
7. Automatic Temperature Controls:
- a. The existing building management system should be upgraded as required to meet the needs of an educational facility. It is recommended that the existing pneumatic controls be completely removed and replaced with a modern DDC system. Any new thermostats or controls required as part of this project should also be DDC.
8. Administration Area:
- a. Due to the fact that the administration area is not air conditioned by a central means, it is recommended that a variable refrigerant flow (VRF) system be installed. This type of system consists of a series of ductless fancoil units served by a single air cooled condensing unit. These systems are manufactured by Mitsubishi, Daikin, and Fujitsu. VRF systems have proven to be very reliable, quiet and energy efficient.

## ***Electrical Systems***

### **Existing System Summary:**

- 1. The building's 800 amp, 120/208 volt, three phase, enclosed main circuit breaker located in the Basement (room next to the transformer) is fed by three underground conduits from the pad mounted electric utility co. transformer. The transformer is fed by a primary electric service off of an electric utility co. pole. The electric utility co. meter is located on the exterior of the building. The enclosed main circuit breaker feeds the 800 amp main distribution panel MDP located in the Main Electric Room which in turn feeds panels in the room as well as other panels throughout the building. The MDP appears to be in good condition while the rest of the power distribution appears to be in original, poor condition.
- 2. The four zone conventional Fire Lite MS-4 fire alarm control panel is located in the Principal's Office. Zones are labeled Zone 1 Top Floor, Zone 2 Bottom Floor, and Zone 3 Service Area. One of the zones is unused. The fire alarm control panel calls the Fire Department via radio master box also located in the Principal's Office and an exterior mounted antenna. There are pull stations at egresses and entrances to Stairs.

---

The building appears to have complete coverage throughout as required by Code using heat detectors and smoke detectors, since the building does not have sprinklers. The Corridors have horn/strobes. A few of the Toilet rooms have strobes. Deficiencies include no horn/strobes in Classrooms and some of the larger spaces such as the Library, pull stations not at ADA heights, no fire alarm annunciators at the main entrances, no knox boxes at exterior of main entrances, most of the Toilet rooms and rooms of gathering do not have strobes, some areas do not have enough heat detectors to cover the entire room, no door holders on Corridor or Stair doors, the fire alarm system is not capable of voice evacuation, and horn/strobe coverage in Corridors does not appear to be adequate. We were not able to confirm if the elevator is equipped with elevator recall although not likely. The fire alarm system appears to be in poor condition.

*Recommendations:*

1. The existing electric service load should be reviewed before adding new load as the service is not that large when considering square footage of the building. It may turn out that the electric service is adequate, but due diligence should be performed. By contacting the electric utility co. and referencing the electric utility co. meter number, the peak demand on the electric service over the past year should be obtained. If the electric service were required to be upgraded, fortunately there are three conduits from the electric utility co. transformer to the enclosed main circuit breaker. The third conduit could be used to provide an upgrade to 1200 amps. A new 1200 amp main distribution panel would be required with the existing MDP being back fed at 800 amps.
2. The existing fire alarm system should be replaced with new because the existing fire alarm system is in poor condition and has many deficiencies. An addressable manual and automatic fire alarm system with voice evacuation should be provided connected to a radio master box and antenna to call the Fire Department in the event of an alarm. The fire alarm control panel should be located in the Main Electric Room or an area as so directed by the Fire Department. Remote annunciator panels should be provided at Fire Department entries, with knox boxes on the exterior of same locations. A map of the entire building should be framed and mounted adjacent to the fire alarm control panel and the annunciators. Manual pull stations should be located within five feet (5') of egresses and at entrances to Stairs. Additional pull stations should be provided as required by Code. Heat detectors should be provided in all rooms to provide complete coverage as required by Code and at the top of the elevator shaft. Smoke detectors should be provided in the Corridors, in Stairs at each floor, in the Elevator Machine Room, and at all elevator landings for early detection of smoke for recall. Speaker/strobes should be provided in the Corridors, Classrooms, Teacher Work,

---

Kitchen, Multi-purpose rooms, the Gymnasium, the Library, and larger spaces. Strobes should be provided in Toilet rooms and rooms of gathering. Mechanical equipment should be shut down by the fire alarm system as required by Code. Door holders should be provided on Stair and Corridor doors.

## **APPENDIX ii Structural Report**

---

## **STRATTON ELEMENTARY SCHOOL**

Arlington, Massachusetts

### **Renovation Study**

July 31, 2014

#### **INTRODUCTION**

*Foley Buhl Roberts & Associates, Inc. (F BRA) is working with Drummond Rosane Anderson, Inc. (DRA) to structurally evaluate proposed renovations and ADA upgrades to the Stratton Elementary School, located at 180 Mountain Avenue in Arlington, Massachusetts.*

The building structure was reviewed at the site, during a July 11, 2014 visit. Various Architectural and Structural Drawings for the existing building (listed below) were made available, for use by the Project Team.

The purpose of this report is to identify and describe the structural systems of the existing building and to comment on the structural aspects of the proposed renovations.

#### **AVAILABLE DOCUMENTS:**

The following Architectural and Structural Drawings for the existing building were reviewed in the preparation of this report:

##### **1960 Original Building:**

- Structural Drawings (3 total), prepared by Lawrence S. Burke, P.E.; date not legible.

##### **1966 Additions and Alterations:**

- Architectural Drawings prepared Korslund, LeNormand & Quann, Inc., Norwood, Massachusetts, dated January 14, 1966.
- Structural Drawings S-1 and S-2, prepared by TIOT Engineering, Inc., Norwood, Massachusetts, dated January 14, 1966.

#### **STRUCTURAL SYSTEMS DESCRIPTION:**

##### **1960 Original Building:**

The original (1960) school building is a one and two-story, steel framed structure with steel beams and columns at the interior and perimeter of the building. The building was constructed on a sloping site (downwards, northwest to southeast). Classrooms are located in a two-story wing on the east side, at the Ground and First Floor levels. Classrooms are organized in a double loaded corridor arrangement. The classroom floor and roof framing was obscured by finishes. The Gymnasium, Cafetorium and Kindergarten wing is located on the west side of the building; Administrative Offices and the Library are located in between this wing and the Classroom wing. The roof structure in some areas (e.g. the Gymnasium) was visible, as there were no suspended ceilings. The boiler room is adjacent to the gymnasium; this is a 2+/- story high room with a mezzanine on the west side.

## **STRATTON ELEMENTARY SCHOOL**

Arlington, Massachusetts

### **Renovation Study**

July 31, 2014

Page 2 of 5

*Story heights* in the Classroom wing are approximately 11½ feet.

*Structural Bays:* Typical classroom floor and roof framing spans 28'-6" to paired steel columns at the (11'-4" wide) corridor. Spans vary in the western section Gymnasium, Cafetorium and Kindergarten).

*Materials:* The concrete strength is 2500 psi. Steel reinforcing is ASTM A307;  $f_s=20,000$  psi. Structural steel has an allowable bending stress of 20,000 psi.

*Subsurface Soils/Site:* There is no boring information for the original building, however, all footings are designed to bear on rock. The building was constructed on a sloping site (downwards, west to east).

*Flat Roof Construction* at the classroom wing consists of 3" deep, cementitious wood fiber plank (Insulrock) with steel bulb tees, supported by open web steel joists which span the classrooms in the north-south direction. Steel joists are supported by steel beams and columns on each side of the central corridor and also at the building perimeter.

*Sloped Roof Construction* at the Gymnasium, Cafetorium and Kindergarten wing consists of steel beams spaced at 6 to 8 feet on centers, spanning up the slope to a central ridge beam. Cementitious wood fiber roof plank with steel bulb tees spans between beams. Sloped roof construction at the original Kindergarten wing is similar.

*First Floor Construction* in the Classroom wing consists of a 2½" deep concrete slab on steel forms, spanning 2+- feet to open web steel bar joists. Bar joists are supported by steel beams and columns on each side of the central corridor and also at the building perimeter.

*Lowest Level Floor* construction (Ground Floor level in the Classroom wing and First Floor level elsewhere) is a 4" thick concrete slab on grade. The Gymnasium Floor was constructed approximately 5'-4" lower than the surrounding First Floor areas.

*Foundations* are reinforced concrete walls with continuous footings at the building perimeter and spread footings at individual, interior columns.

*Expansion Joints:* The (east) Classroom wing is structurally separated from the rest of the building by a 1" expansion joint.

*Lateral force resistance* (wind and seismic loading) is (presumably) provided by frame action between slabs, beams and columns and by the exterior, unreinforced masonry walls. Interior, non-structural masonry partitions may contribute to lateral load resistance, as well.

*Exterior wall construction* is masonry, with brick and precast facing. There does not appear to be an internal cavity, however, weep holes were observed at the base of the brick masonry veneer. Windows in the Classroom wing were recently replaced (2011). Roof overhang/eave construction is wood.

*Fire Resistance:* The steel framed, floor and roof structure is classified as non-combustible construction. Floor and roof framing is typically unprotected (i.e. Type IIB construction). There are no sprinklers.

## **STRATTON ELEMENTARY SCHOOL**

Arlington, Massachusetts

### **Renovation Study**

July 31, 2014

Page 3 of 5

#### **1966 Additions:**

In 1966, a two story Classroom/Playroom addition was constructed on the east side of the original building, extending the existing Classroom wing to the east. This addition is separated from the original Classroom wing by an expansion joint. An addition to the Kindergarten wing on the west side of the facility was constructed at this time as well, increasing the total gross floor area of the facility to approximately 66,000 square feet.

The Classroom/Playroom addition is a two story, steel framed structure with exterior masonry bearing walls and interior steel columns, similar to the original facility. The Kindergarten addition is an extension of the original Kindergarten wing, with a steel framed, sloping roof.

Since the 1966 additions, an elevator has been added to the building.

*Story heights* in the Classroom/Playroom addition are approximately 11½ feet, matching the original Classroom wing. The floor of the Playroom has been constructed approximately 6'-1½" lower than the adjacent section of the Ground Floor to provide additional ceiling height in this space.

*Structural Bays:* Floor and roof framing of the Classroom/Playroom addition spans 33'-10" to paired steel columns at the corridor, spaced 11'-4" apart (similar to the original, 1960 wing). The roof of the Kindergarten addition continues the slope of the original Kindergarten wing roof and is framed with steel beams spanning approximately 31 feet up the slope.

*Materials:* Concrete strength is 3000 psi at structural slabs and 2500 psi elsewhere. Steel reinforcing is intermediate grade. Structural steel is ASTM A36, with a yield strength of 36 ksi.

*Subsurface Soils:* There is no boring information available, however, the drawings indicate an allowable bearing pressure of 4 tons per square foot on natural material or on an 8 inch sand cushion over ledge.

*Flat Roof Construction* at the classroom wing consists of cementitious wood fiber plank (Insulrock) with steel bulb tees, typically spanning 4'-0" to open web steel joists. Steel joists span 33'-10" in the north-south direction and are supported by steel beams and columns on each side of the central corridor and by masonry bearing walls at the exterior.

*Sloped Roof Construction* at the Kindergarten addition consists of steel beams spaced at 6'-1" on centers, spanning up the slope and connecting to original steel framing. Cementitious fiber roof plank with steel bulb tees spans between beams.

*First Floor Construction* consists of a 2½" thick concrete slab on paper-backed wire mesh, spanning 2'-0" to open web steel joists. Steel joists span 33'-10" in the north-south direction and are supported by steel beams and columns at the corridor and by masonry bearing walls (presumably unreinforced) at the exterior.

*Ground Floor* construction at the Classroom and Kindergarten additions is a 4" thick concrete slab on grade, reinforced with welded wire fabric. To the west of the Playroom, utility tunnels have been constructed along the north and south perimeter foundation walls. As noted above, the Playroom floor was constructed approximately 6'-1½" below the adjacent section of the Ground Floor to the west.

*Foundations* are reinforced concrete frost walls with continuous footings at the building perimeter and spread footings at individual, interior columns.

## **STRATTON ELEMENTARY SCHOOL**

Arlington, Massachusetts

### **Renovation Study**

July 31, 2014

Page 4 of 5

*Lateral force resistance* (wind and seismic loading) is (presumably) provided by frame action between slabs, beams and columns and by the exterior, unreinforced masonry walls. Interior, non-structural masonry partitions may contribute to lateral load resistance, as well.

*Exterior wall construction* is masonry, with brick and precast facing. There does not appear to be an internal cavity, however, weep holes were observed at the base of the precast panels. Windows are typically individual, single pane aluminum units. Roof overhang/eave construction is wood.

*Fire Resistance:* The steel framed, floor and roof structure is classified as non-combustible construction. Floor and roof framing is typically unprotected. There are no sprinklers.

### **PROPOSED RENOVATIONS - STRUCTURAL COMMENTS**

Renovations, alterations, repairs and additions to existing buildings in Massachusetts are governed by the provisions of the Massachusetts State Building Code (MSBC – 8<sup>th</sup> Edition) and the Massachusetts Existing Building Code (MEBC). These documents are based on amended versions of the 2009 *International Building Code (IBC)* and the 2009 *International Existing Building Code (IEBC)*, respectively.

The MEBC defines three (3) compliance methods for the repair, alteration, change of occupancy, addition or relocation of an existing building. The method of compliance is chosen by the Design Team (based on the project scope and cost considerations) and cannot be combined with other methods. In this case, the *Work Area Compliance Method* (IEBC Chapters 4 through 12) is most appropriate. This method is based on a proportional approach to compliance, where upgrades to an existing building are triggered by the type and extent of work. No change in use/occupancy of the building is proposed. The proposed renovations to the Stratton Elementary School would be classified as a *Level 2 Alteration* (IEBC 2009, Chapter 7), as the work area is less than 50% of the building floor area. In addition, Section 101.10 of the Massachusetts Chapter 34 Amendments (Masonry Walls) and Appendix A1 of IEBC 2009 would not be applicable. A seismic retrofit of the building would not be required.

In a previous (2011) renovation, windows in the Classroom wing were replaced, a new membrane roof was installed in this wing, exterior brick veneer was repaired/repointed and various MEP upgrades were undertaken.

The anticipated scope of the new, proposed renovations includes the following:

#### **Renovation Area 1 (1960 Original Building):**

Renovate the existing Administration, Library, Staff and Kitchen areas to provide new Administrative Offices and improved/expanded Nurse's, Teacher Dining and Kitchen spaces. The Library will be moved to the current Playroom at the east end of the building (1966 addition).

#### **Anticipated Scope of Structural Work:**

- Miscellaneous slab on grade trenching/patching, as required to accommodate new equipment and services in the Kitchen.
- FBRA recommends that existing masonry walls that are scheduled to remain in the renovated area (a number will be removed) be anchored to the roof construction, per

## **STRATTON ELEMENTARY SCHOOL**

Arlington, Massachusetts

### **Renovation Study**

July 31, 2014

Page 5 of 5

Sections A110.2.3 and A113.1 of IEBC 2009. Note that this would be a voluntary improvement (not specifically required by the Code), in accordance with IEBC 2009, Section 707.6.

#### **Renovation Area 2 (1966 Addition):**

As noted above, the Library will be relocated to the area currently occupied by the Playroom. As this level is approximately 6'-1½" lower than the adjacent floor, a new lift will be required (currently accessed by stairs only).

#### **Anticipated Scope of Structural Work:**

- Install a new lift on the west wall of the space. Removal of the slab on grade in this area and construction of a new pit will be required. The adjacent slab on grade will need to be patched after the construction of the pit is completed. A new opening (with a lintel) in the existing (non-load bearing) masonry wall will also be required.
- There is a raised slab area (approximately 200 square feet) at the northwest corner of this space (current Storage Room), adjacent to the stair. This construction (reinforced concrete slab and walls) will need to be removed to accommodate the proposed Workroom in the relocated Library. Infilling and patching of the slab on grade in this area will be required, once the existing construction is removed.
- Openings in the masonry exterior wall along the east side of this space may be modified. As this masonry wall provides lateral stability for the building, existing openings should not be widened and new openings should not be cut, if at all possible. Modifications such as cutting down the existing window sills to create a taller window could be achieved at a reasonable cost.

#### **Miscellaneous Renovations:**

- Another lift will be installed near the entrance to the Gymnasium (the floor of which is approximately 5'-4" below the adjacent First Floor elevation). A new pit and related slab on grade removal/infill/patching will be required.
- New MEP equipment will be located inside the building; no new roof top equipment is proposed.
- Cosmetic upgrades to spaces throughout the building may be done; however, such work will not impact structural requirements/scope.

***End of Structural Report***

### **APPENDIX iii Parity Study**

---

## PARITY ISSUES

PRIORITY 1	Design Suggestions
Lobbies	New Reception Desk, Secretary Desk and casework New carpeting for Admin Area New Ceiling System, Accent Canopies, Soffits Enhancements to Waiting Area Wood Paneling/ Acoustical Paneling or Fabric Wrapped Panels
Classrooms	New Casework/ Cubbies Upgrade Desks and Chairs Light Shelves at Windows Paint Walls New Teachers Desk
Corridors	Wood Lockers with Doors Ceramic Tile accent wall, one side of corridor/ wainscot height New wood classroom doors Breakout areas
Gymnasium	New Basketball Backstops Paint Walls, Structure and Roof Deck (Ceiling) Acoustical Panels/ Tectum on Walls New Protective Wall Pads Signage/ School Logo graphics on wall/ Center Court
Cafeteria	Acoustical Partition at Stage Wood Paneling/ Fabric Wrapped Panels at Proscenium Wall Acoustical Treatment on Sidewalls (Sections of Fabric Wrapped Panels) Replace Tables with New Cafeteria Furniture

PRIORITY 2	Design Suggestions
------------	--------------------

Stage	Casework for Instrument Storage Upgrade Sound System Upgrade Stage Lighting - quasi theatrical lighting Paint Walls, Ceiling and Structure
Toilets	New Fixtures, Partitions, Mirrors and Accessories
Stairs	Install New Railing System
Entranceway	Enhance Main Entrance, Columns, Portico, School Signage
Site	Directional Signage Line Striping for Parking and Traffic Control New Timber Guardrail along Parking Lot Outdoor Classroom Landscaping

## CLASSROOMS

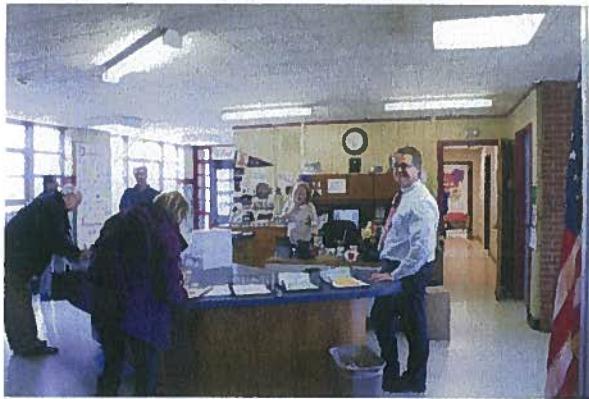

STRATTON SCHOOL

THOMPSON

- Insulated windows with light shelves.
- Linoleum tile flooring
- vibrant colors
- Casework - storage for books beneath windows
- Cubbies for Student Storage
- Contemporary furniture
- Comfortable Seating

## LOBBY

STRATTON SCHOOL

THOMPSON

- Two story space - voluminous
- Open to second floor
- Sheet Vinyl Flooring
- Vibrant Covers
- New Casework, Counters, Wood Panelling
- Architectural Lighting
- Continuity to Principal Office and Work Room

**7:30 p.m. School Committee Discussion on NovusAgenda Software (45 minutes)**

**ATTACHMENTS:**

Type	Description
<input type="checkbox"/> Backup Material	Adam K Summary from 9 4 2014 meeting docs

## NOVUS AGENDA SUMMARY

For School Committee meeting on September 4, 2014

09/02/2014

### COMMON QUESTIONS

- A. How does the system work with Executive Session?
- B. Can we make the agenda and packet available to the public a few days before the meeting?
- C. What are the security specifications of the system?
- D. How will Novus integrate with the website?
- E. What is the cost of NovusAgenda?
- F. Overall pilot summary, by Adam Kurowski, Systems Analyst

Attachment A: Integration of NovusAgenda with Vision Internet

### A. EXECUTIVE SESSION

Materials destined for the Committee packet and designated for Executive session can be controlled appropriately in the Novus system. There are a few options for including these materials in the BoardView system, that only Committee members have access to, while omitting these materials on the publicly accessible PDF and HTML packet. Staff will need to be trained and diligent about these settings to ensure Executive Session protocols are followed. The Legal Department should be consulted to ensure protocols are valid.

### B. AGENDA AND PACKET AVAILABILITY

- Administrative staff has full control over when the agenda packet is posted to the BoardView (Board member access only) website and to the PublicView (public access only) document portal.
- Staff can make the BoardView packet available on a different date and time than the PublicView.
- Staff can create an agenda without reference material or an agenda packet with some or all reference material.
- On both the BoardView and PublicView websites, the items in previous bullet can be created in PDF or HTML format. It is preferred that the HTML version is promoted as the first choice for users because it is quicker to load, remains dynamic and instantly updated versus a downloaded PDF which will not, and it is fully ADA Compliant.
- The more complex the policy for posting the materials, the more complex the workflow for staff to deliver. Meaning, posting an entire packet for just the Committee on a date, then posting just the agenda without reference materials on a different date, and then posting the entire packet to the public on yet another date constitutes many scheduled steps for staff. Simplifying these requirements would be beneficial.
- A policy and/or guide should be developed and adhered to by agenda item submitters and agenda creators to ensure success.

### C. SECURITY

In general, an internet-based computer system has multiple security levels. The security of the data center

and the security of the internet connection to the user's computer.

Choosing a functional, dependable, and secure data center is the responsibility of the vendor and in this case, Novus uses an industry standard data center through Amazon. NovusAGENDA is written in C# and .NET with the data stored in a Microsoft SQL database that runs on Amazon EC2 servers (<http://aws.amazon.com/ec2/>), with daily backups stored on Amazon S3. (<http://aws.amazon.com/s3/>)

- For more information on Amazon EC2 security refer to the [Amazon Web Services: Overview of Security Process document](http://d36cz9buwru1tt.cloudfront.net/pdf/AWS_Security_Whitepaper.pdf).  
([http://d36cz9buwru1tt.cloudfront.net/pdf/AWS\\_Security\\_Whitepaper.pdf](http://d36cz9buwru1tt.cloudfront.net/pdf/AWS_Security_Whitepaper.pdf))

The connection from the Amazon servers to a user's computer is more challenging to keep secure. It is the responsibility of the user to ensure that their connection is safe and secure.

## D. WEBSITE INTEGRATION

Joan Roman, the Public Information Officer, has tested the integration of Novus' PublicView webpage with the Town's website. The Novus PublicView website is a document search portal that allows the public to view HTML and PDF agenda packets and minutes, and if available, links to meeting videos. Generally, we believe the integration test to be a success, although further tweaks on the Novus side would improve the look and feel and have been requested through Novus, such as changing the background color from white to that of the rest of our website, and adjusting the font size. Novus told us that those requests will be considered, but not immediately implemented. See Attachment A, for screenshots and notes or the integration.

## E. NOVUS AGENDA COST

The pricing break down shows the cost in year one and annually thereafter. The cost omits the instant voting tool (\$600), which was deemed unnecessary by both the BOS and School Committee. It also omits the one-time training fee (\$750), which Novus verbally waived during a recent discussion. Although we have not talked in detail about video integration, Package 2 and 3 can be added later in the process and I recommend we revisit this topic later on. Discussion about video integration should include ACMI to ensure compatibility and technical aspects, as well as administrative staff and the IT Department.

<b>Product</b>	<b>Cost</b>
NovusAGENDA	\$7,950
NovusMEETING	Included
NovusBOARDVIEW	Included
NovusREPORTING	Included
Board and Committee management	Included
Video Integration (see below)	Included
Required Training (one-time fee)	\$750
Administrator Training	fee waived per phone call on 8/11/14
Board Clerk Training	
User Training	
Board Training	
Web Based Training, on-demand videos	
<b>Year 1 Cost and annually starting in Year 2</b>	<b>\$7,950</b>

<b>Video Integration</b>	<b>Annual Cost</b>
<b>Package 1</b>	Free
Hosting of 25 videos per year, not indexed to coincide with agenda. Adam Kurowski recommends Package 1 in Year 1, so that we can learn the basic tools before trying to use the more advanced video options.	
<b>Package 2</b>	\$4,995
Unlimited videos, live stream in-meeting, hosting of past meeting videos, and POST-MEETING MANUAL indexing by Arlington staff so that agenda coincides with a exact point in the video	
<b>Package 3</b>	\$6,995
Unlimited videos, live stream in-meeting, hosting of past meeting videos, and IN-MEETING LIVE indexing by staff/assistant so that agenda coincides with a exact point in the video	
<i>All video options require a user to access a separate webpage to view</i>	

## F. OVERALL PILOT SUMMARY, BY ADAM KUROWSKI, SYSTEMS ANALYST

After speaking with Board of Selectmen and School Committee admin staff, as well as people in similar positions in \*Natick, Merrimac, and Medway, everyone seems to have the same impression of the system. The system improves the previous process of agenda packet development, especially related to paper usage, copying, printing, archiving, and searching for historic documents. However, everyone recognizes that the system has its quirks, seemingly too many clicks to perform certain functions within the agenda creation workflow, and it isn't very elegantly designed.

All of the previous items to relate to the systems' usability, which is an important part of the success of any new technology implementation. However, NovusAgenda is successfully being learned by BOS and School admin staff, so the flaws are not showstoppers. With professional training from Novus still on the horizon, we may find improved ways of interacting with the system. NovusAgenda scored the highest of our 3 finalist from a purely technical standpoint from our demonstrations earlier this year, so from that standpoint, the system is sound.

Integration with the Town website is also an important aspect to consider. From a technical standpoint,

Novus integrates well using hyperlinks and iframe tools, but aesthetically we will be seeking improvements from Novus to mesh better with our website look.

My opinion is that we would successfully meet many of our goals defined in the project scope if we implemented NovusAgenda. Although staff may continue to struggle with some of the system design quirks and frustrations, I anticipate that over time some of those items would be more easily overlooked due to other improvements gained. BOS and School admin staff has requested my continued support as they learn the system, which I plan to provide in the short term. Eventually staff will need to rely on Novus' virtual technical support, which the communities that I interviewed had very positive review of. Overall, I wish I was more enamored with the NovusAgenda system, but the cost, the functionality, and technological advancement that this system provides seem like a good fit for us.

Note: \*each community has been using NovusAgenda for at least 6 months.

## G. FOR SCHOOL COMMITTEE DISCUSSION

- A. Does the School Committee support or approve the Committees use of the NovusAgenda system?
- B. What policies need to be created related to workflow of NovusAgenda?
  - i. Closing date of packet material submission
  - ii. Posting date of public agenda and packet
  - iii. Paper packet availability to Committee and public at meetings
  - iv. Mobile device purchasing and use vs. personal device use
- C. Method of recording motions and votes
- D. Annual follow up meeting with Systems Analyst and Committee each June

## ATTACHMENT A: Integration of NovusAgenda with Vision Internet

**Option A. Calendar page can have a link directly to the agenda webpage.**  
More effort for the Calendar item creator, less effort for the user.

**Interactive agenda webpage in Novus.**

**Option B. Calendar page can have a link directly to the agenda and minutes search webpage. Less effort for the Calendar item creator, more effort for the user.**

## Town of Arlington, Massachusetts

**8:15 p.m. Superintendent's Report (20 minutes) K. Bodie**

**Summary:**

**ATTACHMENTS:**

Type	Description
<input type="checkbox"/> Backup Material	Staffing Report September 18, 2014 Rob Spiegel

**Staffing Report**  
**September 18, 2014**

**New Administrator Summary**

2 New Elementary Principals - Dallin and Thompson  
New Special Education Director  
New Assistant Principal at Ottoson

**New Teachers Summary**

63 New Teachers/Nurses/Team Chairs/Specialists

Of those:

42 replace teachers who retired, resigned, moved to another position, or are on a full year leave

19 are new positions (some are partial FTE's). Some are for the new cluster at Ottoson, some for grade level increases and other FTE needs at the middle and high school. We also have an increased in ELL staffing based on numbers of ELL student and staffing of math coaches.

2 positions in the preschool had previously been contractors. We made them employees this year.

1 position is a Title I Reading Teacher at Germaine Lawrence. Since the Title I money comes through us, we hire the staff person. Previously, this position was a tutor position, but GL decided to allocate the funds differently and were able to hire a teacher.

10 of the people newly hired as teachers had been teaching assistants or building subs in Arlington. Some others had done student teaching here and some others had previously been in long term substitute positions.

**HR has met with each new hire to review essential information, including ethics law, insurance options, orientation schedule and to set teachers on the salary scale according to contract. We have also reviewed fingerprinting requirements for each new employee.**

**Hires by School:**

<b><u>Arlington High School</u></b>	<b><u>14</u></b>
-------------------------------------	------------------

<u>Ottoson</u>	<u>16</u>
<u>Bishop</u>	<u>2</u>
<u>Brackett</u>	<u>5</u>
<u>Dallin</u>	<u>1</u>
<u>Hardy</u>	<u>4</u>
<u>Peirce</u>	<u>2</u>
<u>Stratton</u>	<u>7</u>
<u>Thompson</u>	<u>4</u>
<u>Menotomy Preschool</u>	<u>3</u>
<u>Germaine Lawrence</u>	<u>1</u>
<u>Split Between Schools</u>	<u>1</u>
<u>District-wide</u>	<u>3 (2 Elementary Math Coaches; 1 BCBA)</u>

#### New Teaching Assistants/Building Substitutes

40 New Teaching Assistants, as of today.

The hiring process continues for them, as we have some unfilled positions. .

Most replace T.A.'s who left. Some others are additional assistants for Kindergarten classrooms, class size needs, or building substitutes.

8 have Masters Degrees. Many others are in school in Masters Programs.

#### Arlington After School Staff:

We now have District-run after-school programs at Hardy, Thompson and Ottoson. We have 10 new after-school staff members, replacing staff members who left the After-School programs at

the end of the 2013-2014 school year and filling the new positions at the Ottoson after school program. Most of these staff members work 25 hours per week.

## Town of Arlington, Massachusetts

## **Superintendent's Evaluation Timeline**

1. Superintendent shall present evidence of the progress made on the previous year's approved goals, including standards, indicators and elements the School Committee and Superintendent agreed to evaluate by September 30, 2014.
2. School Committee members shall complete in writing and present to the chairperson an End-of-Cycle Summative Evaluation Report on the Superintendent for the previous fiscal year (July 1 through June 30) by the second School Committee meeting in October, (10/23/14)
3. The School Committee shall, in open session, evaluate the Superintendent at the first School Committee meeting in November, (11/13/14)
4. The Superintendent will present to the School Committee her Professional Practice, Student Learning, District Improvement, and any other goals she wishes the Committee to consider in her evaluation by the end of November.
5. The School Committee will discuss and vote to approve these and any other goals they wish to consider in the superintendent's 2014 – 2015 evaluation during the last School Committee meeting in December.
6. The Superintendent will provide the School Committee members with evidence during the year in support of the goals agreed upon.
7. The School Committee will provide in open session a formative assessment of the Superintendents work to date in achieving the agreed upon goals on the last School Committee meeting in March, (3/26/15).

1, 2, 3 are from School Committee Policy CBI

4, 5, 6, 7 are recommended by the Evaluation Sub-Committee

Date

### Step 1: Assess Progress Toward Goals (Complete page 3 first; circle one for each set of goal[s].)

Professional Practice Goal(s)	Did Not Meet	Some Progress	Significant Progress	Met	Exceeded
Student Learning Goal(s)	Did Not Meet	Some Progress	Significant Progress	Met	Exceeded
District Improvement Goal(s)	Did Not Meet	Some Progress	Significant Progress	Met	Exceeded

### Step 2: Assess Performance on Standards (Complete pages 4–7 first; then check one box for each standard.)

#### Indicators

**Unsatisfactory** = Performance on a standard or overall has not significantly improved following a rating of *Needs Improvement*, or performance is consistently below the requirements of a standard or overall and is considered inadequate, or both.

**Needs Improvement/Developing** = Performance on a standard or overall is below the requirements of a standard or overall but is not considered to be Unsatisfactory at the time. Improvement is necessary and expected. *For new superintendents, performance is on track to achieve proficiency within three years.*

**Proficient** = *Proficient practice is understood to be fully satisfactory. This is the rigorous expected level of performance.*

**Exemplary** = A rating of *Exemplary* indicates that practice significantly exceeds *Proficient* and could serve as a model of practice regionally or statewide.

Unsatisfactory	Needs Improvement	Proficient	Exemplary
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

## End-of-Cycle Summative Evaluation Report: Superintendent

### Step 3: Rate Overall Summative Performance (*Based on Step 1 and Step 2 ratings; circle one.*)

Unsatisfactory

Needs Improvement

Proficient

Exemplary

### Step 4: Rate Impact on Student Learning (*Check only one.*)

Low	Moderate	High
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### Step 5: Add Evaluator Comments

Comments and analysis are recommended for any rating but are required for an overall summative rating of *Exemplary*, *Needs Improvement* or *Unsatisfactory* or Impact on Student Learning rating of *high* or *low*.

**Comments:**

## Superintendent's Performance Goals

Goals should be SMART and include at least one goal for each category: professional practice, student learning, and district improvement.  
*Check one box for each goal.*

Goal(s)	Description	Did Not Meet	Some Progress	Significant Progress	Met	Exceeded
<b>Professional Practice</b>						
1		<input type="checkbox"/>				
<b>Student Learning</b>

<b>Other Goals (if any)</b>						
6		<input type="checkbox"/>				
7		<input type="checkbox"/>				

# Superintendent's Performance Rating for Standard I: Instructional Leadership

	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-A. <b>Curriculum:</b> Ensures that all instructional staff design effective and rigorous standards-based units of instruction consisting of well-structured lessons with measurable outcomes.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I-B. <b>Instruction:</b> Ensures that practices in all settings reflect high expectations regarding content and quality of effort and work, engage all students, and are personalized to accommodate diverse learning styles, needs, interests, and levels of readiness.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I-C. <b>Assessment:</b> Ensures that all principals and administrators facilitate practices that propel personnel to use a variety of formal and informal methods and assessments to measure student learning, growth, and understanding and make necessary adjustments to their practice when students are not learning.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I-D. <b>Evaluation:</b> Ensures effective and timely supervision and evaluation of all staff in alignment with state regulations and contract provisions.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
I-E. <b>Data-Informed Decision Making:</b> Uses multiple sources of evidence related to student learning—including state, district, and school assessment results and growth data—to inform school and district goals and improve organizational performance, educator effectiveness, and student learning.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

<b>Overall Rating for Standard I (Circle one.)</b>	The education leader promotes the learning and growth of all students and the success of all staff by cultivating a shared vision that makes powerful teaching and learning the central focus of schooling.
--	---

**Unsatisfactory**

**Needs Improvement**

**Proficient**

**Exemplary**

**Comments and analysis (recommended for any overall rating; required for overall rating of *Exemplary*, *Needs Improvement* or *Unsatisfactory*):**

**Examples of evidence superintendent might provide:**

- Goals progress report
- Analysis of classroom walk-through data
- Analysis of district assessment data
- Sample of district and school improvement plans and progress reports

- Analysis of staff evaluation data
- Report on educator practice and student learning goals
- Student achievement data
- Analysis of student feedback
- Analysis of staff feedback

- Relevant school committee meeting agendas/materials
- Analysis of leadership team(s) agendas and/or feedback
- Protocol for school visits
- Other: \_\_\_\_\_

## Superintendent's Performance Rating for Standard II: Management and Operations

	Unsatisfactory	Needs Improvement	Proficient	Exemplary
<i>Check one box for each indicator and circle the overall standard rating.</i>				
<b>II-A. Environment:</b> Develops and executes effective plans, procedures, routines, and operational systems to address a full range of safety, health, emotional, and social needs.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>II-B. Human Resources Management and Development:</b> Implements a cohesive approach to recruiting, hiring, induction, development, and career growth that promotes high-quality and effective practice.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>II-C. Scheduling and Management Information Systems:</b> Uses systems to ensure optimal use of data and time for teaching, learning, and collaboration, minimizing disruptions and distractions for school-level staff.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>II-D. Law, Ethics, and Policies:</b> Understands and complies with state and federal laws and mandates, school committee policies, collective bargaining agreements, and ethical guidelines.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>II-E. Fiscal Systems:</b> Develops a budget that supports the district's vision, mission, and goals; allocates and manages expenditures consistent with district- and school-level goals and available resources.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Overall Rating for Standard II (Circle one.)</b>	The education leader promotes the learning and growth of all students and the success of all staff by ensuring a safe, efficient, and effective learning environment, using resources to implement appropriate curriculum, staffing, and scheduling.			

**Unsatisfactory**

**Needs Improvement**

**Proficient**

**Exemplary**

**Comments and analysis (recommended for any overall rating; required for overall rating of *Exemplary*, *Needs Improvement* or *Unsatisfactory*):**

**Examples of evidence superintendent might provide:**

- Goals progress report
- Budget analyses and monitoring reports
- Budget presentations and related materials
- External reviews and audits
- Staff attendance, hiring, retention, and other HR data

- Analysis of student feedback
- Analysis of staff feedback
- Analysis of safety and crisis plan elements and/or incidence reports

- Relevant school committee meeting agendas/minutes/materials
- Analysis and/or samples of leadership team(s) schedule/agendas/materials
- Other: \_\_\_\_\_

## Superintendent's Performance Rating for Standard III: Family and Community Engagement

	Unsatisfactory	Needs Improvement	Proficient	Exemplary
<i>Check one box for each indicator and circle the overall standard rating.</i>				
<b>III-A. Engagement:</b> Actively ensures that all families are welcome members of the classroom and school community and can contribute to the effectiveness of the classroom, school, district, and community.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>III-B. Sharing Responsibility:</b> Continuously collaborates with families and community stakeholders to support student learning and development at home, school, and in the community.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>III-C. Communication:</b> Engages in regular, two-way, culturally proficient communication with families and community stakeholders about student learning and performance.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>III-D. Family Concerns:</b> Addresses family and community concerns in an equitable, effective, and efficient manner.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Overall Rating for Standard III (Circle one.)</b>	The education leader promotes the learning and growth of all students and the success of all staff through effective partnerships with families, community organizations, and other stakeholders that support the mission of the district and its schools.			

**Unsatisfactory**

**Needs Improvement**

**Proficient**

**Exemplary**

**Comments and analysis (recommended for any overall rating; required for overall rating of *Exemplary*, *Needs Improvement* or *Unsatisfactory*):**

## **Superintendent Annual Educator Plan**

**Submitted by: Kathleen Bodie**

**September 17, 2013**

**Practice Goal:** From September 2013 to May 2014, the focus of three visits to each school will be on the quality of educator practice followed by a meeting with the principal to debrief our joint observation in order to improve the quality of feedback to teachers for the purpose of positively impacting student learning and achievement.

### **Key Actions:**

1. “Unpack” the rubrics for Standards 1 and 2 in the Teacher Rubric with the Administrative Team to create a list of best instructional practices corresponding to the indicators in Standards 1 and 2.
2. Engage the Administrative Team in professional development during the summer 2013 and throughout 2013-2014 to improve calibration of observations and evaluations.
3. Develop a schedule of school visits that provides sufficient time for classroom and specialist visits, as well as debrief time with principals.
4. Keep notes or artifacts, if any, from each visit.
5. Develop a protocol for school visits that includes guiding questions for discussion following shared observations.

### **Benchmarks:**

1. Calendar will show schedule and time of each visit.
2. Principal survey in March will show principal reflections on the process, including knowledge and skills learned through participation in the process.
3. Data relative to the administrative team goal of improving calibration among administrators to improve teacher feedback, which will positively impact student achievement, including professional development provided.

### **Superintendent Standards Reference:**

#### ***Superintendent Standards & Indicators Rubric***

<b>Indicator I-A. Curriculum: Ensures that all instructional staff design effective and rigorous standards-based units of instruction consisting of well-structured lessons with measurable outcomes.</b>
---

I-A. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-A-2. Lesson Development Support	Does not state expectations for administrators that they establish effective strategies to ensure development of well-structured lessons, does not provide training or support, and/or does not discriminate between strong and weak strategies for ensuring effective lesson-planning practices.	Provides limited training to administrators on how to establish effective strategies for ensuring that educators develop well-structured lessons and/or does not consistently identify and/or address patterns when there is evidence of a weak strategy being employed.	<b>Supports administrators to learn and establish effective strategies for ensuring that educators develop well-structured lessons with challenging, measurable objectives and appropriate student engagement strategies, pacing, sequence, activities, materials, technologies, and grouping.</b>	Supports administrators to collaborate on developing strategies that enable educators to consistently develop series of interconnected, well-structured lessons with challenging objectives and appropriate student engagement strategies, pacing, sequence, materials, and grouping and identifies specific exemplars and resources in each area. Is able to model this element.

<b>Indicator I-B. Instruction: Ensures that practices in all settings reflect high expectations regarding content and quality of effort and work, engage all students, and are personalized to accommodate diverse learning styles, needs, interests, and levels of readiness.</b>				
I-B. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-B-1. Instructional Practices	Does not look for evidence of and/or cannot accurately identify ways that principals identify effective teaching strategies when the principals observe practice and review unit plans..	While the superintendent may observe principal practice and artifacts, s/he only occasionally looks for evidence that principals are identifying effective teaching strategies and practices when they observe practice and review unit plans.	<b>While observing principal practice and artifacts, ensures that principals identify a variety of effective teaching strategies and practices when they observe practice and review unit plans.</b>	While observing principal practice and artifacts, ensures that principals know and employ effective strategies and practices for helping educators improve instructional practice. Is able to model this element.

I-B. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-B-3. Diverse Learners' Needs	Does not look for evidence of and/or cannot accurately identify ways that principals identify effective teaching strategies and practices that are appropriate for diverse learners.	While the superintendent may observe principal practice, s/he only occasionally looks for evidence that principals are identifying effective teaching strategies and practices that are appropriate for diverse learners when they observe practices and review unit plans.	<b>While observing principal practice, ensures that principals look for and identify a variety of teaching strategies and practices that are effective with diverse learners when they observe practices and review unit plans.</b>	Employs strategies that ensure that principals know and consistently identify teaching strategies and practices that are meeting the needs of diverse learners while teaching their content. Is able to model this element.

**Indicator I-D. Evaluation: Provides effective and timely supervision and evaluation of all staff in alignment with state regulations and contract provisions.**

I-D. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-D-2. Observations and Feedback	Rarely conducts visits to observe principal practice and/or does not provide honest feedback to administrators who are not performing proficiently.	Makes infrequent unannounced visits to schools to observe principal practice, rarely provides feedback that is specific and constructive for administrators, and/or critiques struggling administrators without providing support to improve their performance.	<b>Typically makes at least three unannounced visits to each school to observe principal practice every year and provides targeted constructive feedback to all administrators. Acknowledges effective practice and provides redirection and support for those whose practice is less than Proficient.</b>	Makes unannounced visits to schools throughout the year to observe administrator practice and provides targeted constructive feedback to all administrators. Engages with all in conversations with all administrators about improvement, celebrates effective practice, and provides targeted support to administrators whose practice is less than Proficient. Is able to model this element.
I-D-4. Alignment Review	Does not review alignment between judgment about practice and data about student learning when evaluating and rating administrators.	Occasionally reviews alignment between judgment about practice and student learning data.	<b>Consistently reviews alignment between judgment about practice and student learning data and provides guidance to administrators to make informed decisions about educator support and evaluation based upon this review.</b>	Studies alignment between judgment about practice and data about student learning when evaluating and rating administrators and provides effective support around this practice. Is able to model this element.

**2013-2014 District Goals Reference:**

Goal II – 1: Teachers in order to demonstrate proficiency under the new Educator Evaluation System, which will be implemented in the district during the 2013-2014 school year, will be provided with professional development to implement the new system and to improve their instructional practice.

**Superintendent Annual Educator Plan**  
**Submitted by: Kathleen Bodie**  
**September 17, 2013**

**Student Achievement Goal:** Student performance on MCAS 2014 in the aggregate at all levels and at each grade tested will improve from the MCAS baseline in 2013.

**Key Actions:**

1. An additional math support teacher will be hired in the middle school.
2. Level B mathematics and ELA classes at the high school will be redesigned to meet the learning needs of ELL and special education students.
3. All teachers who teach mathematics will have professional development in mathematics to deepen their own knowledge, which has a positive effect on student learning..
4. Math and ELA curriculum leaders will hold professional development working sessions with teachers K – 12 over the summer to include, but not be limited to, documentation of curriculum maps modified to include Common Core, integration of literacy requirements for Common Core into Science and Social Studies and the new mathematics curriculum for middle school grades, which is Common Core aligned.
5. Teachers in Grades K – 5 will have two professional development workshops during the early release days in 2013-2014 to focus on implementing the math practices standards of the Common Core. The professional development sessions will also include preparation for changes in curricula due to changes in MCAS as it focuses solely on the Common Core.
6. In grade level groupings, elementary teachers will review common assessments in mathematics to ensure that they measure skills/content that are aligned with the Common Core.
7. Mathematics teachers in Grades 6 – 12 will have a minimum of three PLC professional development opportunities throughout the school year focused on the implementation of the math practice standards of the Common Core.
8. Mathematics coaches at the elementary level will provide regular in- classroom coaching sessions with classroom teachers to ensure fidelity with the district curricula and the Common Core.
9. Two additional elementary math coaches will be hired to support teachers teaching mathematics.
10. Assessments will administered during the year in mathematics to monitor student progress. The results will be used to adjust and modify instruction to help students learn the content standards.
11. The Special Education Coordinator and Principal will support student performance goals/RTI by mutual attendance at Student Support Team weekly meetings.
12. Co-taught programming will be expanded to include 8th grade. This will complete the roll-out of the co-taught model to all grades.
13. Current substantially separate mathematics classes will become a co-taught inclusion model with the addition of general education students at the appropriate skill level.

14. At the middle school, a content teacher will be paired with an SLC teacher for substantially separate classes in Mathematics. A math support class will be offered to students enrolled in this content class.
15. At the high school, the Special Education Coordinator and Math Director will collaborate to develop a co-taught model for sub- separate SLC classrooms. A content certified teacher will pair with a special educator to co-teach a mathematics class. A small group support class will support skill development for individual student progress.

**Benchmark:**

The student achievement scores in mathematics on the 2014 MCAS will improve at all levels and grades tested from the MCAS baseline in 2013.

**Standards Reference:**

***Superintendent Standards & Indicators Rubric***

<b>Indicator I-A. Curriculum: Ensures that all instructional staff design effective and rigorous standards-based units of instruction consisting of well-structured lessons with measurable outcomes.</b>				
I-A. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-A-2. Lesson Development Support	Does not state expectations for administrators that they establish effective strategies to ensure development of well-structured lessons, does not provide training or support, and/or does not discriminate between strong and weak strategies for ensuring effective lesson-planning practices.	Provides limited training to administrators on how to establish effective strategies for ensuring that educators develop well-structured lessons and/or does not consistently identify and/or address patterns when there is evidence of a weak strategy being employed.	<b>Supports administrators to learn and establish effective strategies for ensuring that educators develop well-structured lessons with challenging, measurable objectives and appropriate student engagement strategies, pacing, sequence, activities, materials, technologies, and grouping.</b>	Supports administrators to collaborate on developing strategies that enable educators to consistently develop series of interconnected, well-structured lessons with challenging objectives and appropriate student engagement strategies, pacing, sequence, materials, and grouping and identifies specific exemplars and resources in each area. Is able to model this element.

<b>Indicator I-B. Instruction: Ensures that practices in all settings reflect high expectations regarding content and quality of effort and work, engage all students, and are personalized to accommodate diverse learning styles, needs, interests, and levels of readiness.</b>				
I-B. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary

I-B. Elements	Unsatisfactory	Needs Improvement	Proficient	Exemplary
I-B-1. Instructional Practices	Does not look for evidence of and/or cannot accurately identify ways that principals identify effective teaching strategies when the principals observe practice and review unit plans..	While the superintendent may observe principal practice and artifacts, s/he only occasionally looks for evidence that principals are identifying effective teaching strategies and practices when they observe practice and review unit plans.	<b>While observing principal practice and artifacts, ensures that principals identify a variety of effective teaching strategies and practices when they observe practice and review unit plans.</b>	While observing principal practice and artifacts, ensures that principals know and employ effective strategies and practices for helping educators improve instructional practice. Is able to model this element.
I-B-2. Quality of Effort and Work	Does not set high expectations for the quality of content, student effort, and/or student work district-wide, or expectations are inappropriate.	May set high expectations for the quality of content, student effort, and student work district-wide, but allows expectations to be inconsistently applied across the district.	<b>Sets and models high expectations for the quality of content, student effort, and student work district-wide and supports administrators to uphold these expectations consistently.</b>	Sets and models high expectations for the quality of content, student effort, and student work district-wide and empowers administrators, educators and students to uphold these expectations consistently. Is able to model this element.
I-B-3. Diverse Learners' Needs	Does not look for evidence of and/or cannot accurately identify ways that principals identify effective teaching strategies and practices that are appropriate for diverse learners.	While the superintendent may observe principal practice, s/he only occasionally looks for evidence that principals are identifying effective teaching strategies and practices that are appropriate for diverse learners when they observe practices and review unit plans.	<b>While observing principal practice, ensures that principals look for and identify a variety of teaching strategies and practices that are effective with diverse learners when they observe practices and review unit plans.</b>	Employs strategies that ensure that principals know and consistently identify teaching strategies and practices that are meeting the needs of diverse learners while teaching their content. Is able to model this element.

<b>Indicator IV-A. Commitment to High Standards: Fosters a shared commitment to high standards of service, teaching and learning with high expectations for achievement for all.</b>				
IV-A. Element s	Unsatisfactory	Needs Improvement	Proficient	Exemplary

<b>IV-A. Element s</b>	<b>Unsatisfactory</b>	<b>Needs Improvement</b>	<b>Proficient</b>	<b>Exemplary</b>
IV-A-1. Commitment to High Standards	Does not encourage high standards of teaching and learning or high expectations for achievement with the administrator team, and/or may demonstrate low expectations for faculty and staff.	May ask administrators for commitment to high standards of teaching and learning with high expectations for achievement for all but does not support and/or model it.	<b>Fosters a shared commitment to high standards of teaching and learning, for all administrators, with high expectations for achievement for all.</b>	Leads administrators in developing a shared commitment to high standards of teaching and learning with high expectations for achievement for all. Revisits and renews commitment with administrator team regularly. Is able to model this element.

<b>Indicator IV-D. Continuous Learning: Develops and nurtures a culture in which staff members are reflective about their practice and use student data, current research, best practices and theory to continuously adapt practice and achieve improved results. Models these behaviors in the administrator's own practice.</b>				
<b>IV-D. Element s</b>	<b>Unsatisfactory</b>	<b>Needs Improvement</b>	<b>Proficient</b>	<b>Exemplary</b>
IV-D-1. Continuous Learning of Staff	Accepts the practice of administrators working largely in isolation, without consideration of data and best practices, and/or discourages reflection among administrators, faculty and staff.	May encourage administrators to reflect on the effectiveness of interactions with faculty and students and to use data and best practices to adapt practice but does not support administrators in these practices.	<b>Leads all administrators and teams to reflect on the effectiveness of interactions with faculty and students. Ensures that administrators use data, research, and best practices to adapt practice to achieve improved results.</b>	Models for administrators how to reflect on the effectiveness of interactions with faculty and students and uses data, research, and best practices to adapt practice to achieve improved results. Supports all educators to work in teams as often as is feasible and appropriate. Is able to model this element.

#### **2013-2014 District Goal Reference:**

**Goal I – 2:** In order to narrow the achievement gap, students in subgroups will receive additional support to improve their achievement on MCAS, which will be reflected in each school attaining an annual PPI of at least 75.

**Goal I – 4:** Students in the aggregate at each grade level tested in English Language Arts and Mathematics will attain a Student Growth Percentile of 51 or greater.

*The Arlington Public School Visual Art Department  
Arlington Public Schools  
Arlington, Massachusetts*

To: Bill Hayner, Chair of the Arlington School Committee  
From: Dave Ardito, Interim Director of Visual Art, APS

Dear Mr. Hayner,

As the School Committee determines who the next appointee will be to the Arlington Commission on Arts and Culture (ACAC), I thought a brief list of qualifications might help when reviewing applications.

The commissioner would be required to attend one monthly meeting and to also serve on subcommittees with specific tasks related to the promotion of the arts and culture in Arlington. The commissioner should have knowledge of the Town of Arlington especially as it relates to the school system and be ready to advocate for a climate in the schools and in the town that encourages the growth of and accessibility to a broad range of artistic and cultural opportunities.

Grant writing skills would be a great asset to the ACAC.

I want to thank the members of the School Committee who appointed me to the ACAC in January of 2013 to represent the Arlington schools. It was rewarding being on the commission in its very formative stage and to help define its mission and primary objectives. The Commission now has a solid place in the town's governance and its goals are included in the Master Plan.

While other professional responsibilities including my position as Interim K-12 Director of Visual Art for Arlington Public Schools will prevent me from continuing on the Commission, it is my hope to stay tuned in to ACAC activities and to support ACAC efforts in any way that I can.

I hope other people step forward and express an interest in being appointed to the ACAC by the School Committee.

My best,  
Dave Ardito

## Cultural Commission

Town Meeting established a seven-member Cultural Commission which shall consist of Town residents, six appointed by the Town Manager, one by the School Committee. The Commission shall endeavor to preserve and promote the cultural and artistic resources in Town and work toward establishing Arlington as a significant cultural destination through promotion, education, advocacy, and related activities.

Individuals interesting in applying for appointment should send a letter of interest and resume to School Committee Administrative Secretary Karen Fitzgerald, 869 Massachusetts Avenue, 6<sup>th</sup> Floor, Arlington, MA 02476 or email at [kfitzgerald@arlington.k12.ma.us](mailto:kfitzgerald@arlington.k12.ma.us) by noon Friday, October 10, 2014.

Thank you!

**Arlington School Committee  
Sub Committee  
Special Study Group on Superintendent's Evaluation**

Date: Monday, September 15, 2014

Time: 5:00 pm

Location: 6<sup>th</sup> Floor School Committee Room AHS

The Meeting of the Sub-Committee for Special Study Group on Superintendent's Evaluation of the Arlington School Committee was called to order by Bill Hayner at 5:06

The following Sub Committee members were present: Bill Hayner, Chair, Cindy Starks, Paul Schlichtman Judson Pierce was also present

1. Superintendent's Evaluation Procedure Evaluation Procedure:
  - a. Goals 2013-2014 were agreed to be used to evaluate the superintendent
  - b. Policy File CBI set Timeline will be used
  - c. Policy File CBI-E form to be used
  - d. Rubric – need for Super to indicate which piece of evidence relates to the goal within which rubric.
  - e. Mr. Hayner will create a detailed, with dates, timeline to be presented to the committee and the superintendent.
  - f. Ms. Starks will incorporate the goals into the evaluation form.
2. There was a discussion regarding the use of the District Goals:
  - a. incorporating them into the evaluation form;
  - b. start the next cycle by having the superintendent submit goals for discussion with the committee in December;
  - c. formative discussion will be on the last SC meeting prior to election in March.
3. Dates of next meeting - Monday December 1, 2014 at 5:00 pm
4. Adjournment at 5:59 pm.

Respectfully submitted,

William (Bill) Hayner

---
